## BRITISH LEGATION BESIEGED IN MEXICO CITY DIVISION FORSEEN HIGHUP IN REPUBLICAN PARTY CAMPAIGN

### Butler Perhaps To Be Shorn Of Much Of His Power

WASHINGTON, June 16.—A probable open break between President Coolidge and his secretary, C. Bascom Sloop, to be followed by Sloop's resignation, is widely discussed. Sloop is understood to have criticized the tactics of Coolidge's manager, William H. Butler, at the convention. Indications are that Sloop is finding his position increasingly difficult. It is understood that he demanded of Coolidge whether Coolidge resented more trust in Sloop or in Butler. An informal statement was issued later. Sloop declared that he had no intention of resigning, but expected to take a "very active part" in the Coolidge campaign. It is believed that Sloop, in a conference with Coolidge, succeeded in having Butler shorn of some of his autocratic powers.

### PHILADELPHIA IS SCENE OF ORGIES THAT CLAIM MANY

PHILADELPHIA, June 16.—Poison liquor orgies which took a toll of scores of lives here last year broke out again over the week end, police reports show. Two are dead from drinking poison moonshine, twenty-three were taken to hospitals and four hundred were arrested for drunkenness.

### STEPHENVILLE BOY DROWNED, DALLAS

DALLAS, Texas, June 16.—The body of Lee Purvis, who was drowned in Lake Buchanan Sunday night, was recovered this morning. Purvis' parents live in Stephenville. Three other persons in the boat with Purvis when it capsize, were rescued.

### WORLD FLIGHT LEADER ARRIVES AT TOURANE

By RAY G. MARSHALL (United Press Staff Correspondent)  
PEKIN, June 16.—Lieutenant Lowell Smith, commander of American round-the-world flight, arrived at Tourane yesterday rejoining his companions and the three flyers intended to depart together for Saigon today. The flight commander had been forced down by a little town on the coast of French Indo-China by engine trouble and the motor of his plane was completely wrecked. A destroyer took him a new motor, while the other two, Lieutenants Eric Nelson and L. J. Wade, proceeded on to Touane. Reports that Smith had caught up with the others were received here by the official Government wire.

### CRAP GAME HELD UP

KANSAS CITY, Mo.—"Ten grand" was the amount obtained by robbers when they held up a crap game here. They got \$5,000 in cash from the tables and \$5,000 more from the players' pockets.

### MONEY MARKET

NEW YORK, June 16.—Foreign exchange opened higher, demand sterling \$1.22 1/2, francs .0551 1/2; lire .0141; Belgian .0478, marks 4.210 billion to the dollar.

## Brother of Mexia Lady Dies After Accident In Car

Friends of Mrs. C. F. Hostetter will regret to learn that her brother, A. E. Withers, Jr., was killed in an auto accident between Bryan and College Station last Saturday night. Mrs. Hostetter is bearing up bravely under the stress of the shocking news. The young man died at the Bryan hospital, in his home town Sunday morning at 7 o'clock. While running on the Bryan College road Saturday night, with his brother and another young man, one of the wheels of his car crushed and the car turned over several times. As the car overturned he was caught under the wheel and his chest crushed. He was carried to the hospital immediately but died a few hours later.

### STATE AWARDS FOR TEXTBOOKS ARE APPROVED

AUSTIN, Texas, June 16.—All contracts and bonds made in connection with the awards by the State Text Book Commission for text books were approved by the Commission. All technical difficulties were straitened out.

### TROOPER CULLEN AND BRENNAN KILLED BY GANGMEN

NEW YORK, June 16.—State Trooper Cullen, wounded when unknown assailants shot and killed Bill Brennan, heavyweight pugilist, died this morning. Two men are being held for the shooting.

NEW YORK, June 16.—Bill Brennan, who was only a "trial horse", as a pugilist, saved his money and started an eating and drinking club and early Sunday was shot to death supposedly by rum runners with whom he had fallen out. There were few fighters who could knock Bill from his feet—he wonning fame by staying twelve rounds with champion Jess Willard, but the bootleggers' bullets ended his life and his sister and a State trooper fought vainly to save him. The assassins wounded the latter, probably mortally and fired at Miss Brennan. The shooting took place at the Club Tia Juana, a cabaret run by the pugilist who had retired.

Two men, Frank Rossi, alleged bootlegger and Terry O'Neil, pugilist, were captured by the police after they had beaten a police lieutenant unconscious, smashed their way to Broadway through locked doors and fled in a commandeered car with pistols at the driver's neck. The shooting of Brennan took place in the early morning. The customers had left his cabaret and he was sitting eating with his sister, a singer known as Shirley Sherman. A man entered and tapped him on the shoulder.

"Can I see you a minute, Bill?" he said. Brennan was known to many whom he didn't know. "Sure," he answered and stepped into the hall way of his club, behind heavy portieres. Two shots reverberated through the vacant rooms. Bill was heard to cry out. A friend in the State troopers who had been eating with him, James Cullen, leaped to his assistance and received a bullet through the neck. Brennan's sister sought to seize her brother's assailant and was shot at the bullet going wild.

The prize fighter had been shot in the chest and abdomen. "I'm dying, Shirley," he gasped. "For God's sake, you're not, Bill," she answered, trying vainly to stop the flow of blood from his wounds. "I know I am," Brennan answered. "Oh, my poor wife, my poor child," referring to his wife, Mary and a three and a half year old daughter. The pugilist died in an ambulance, insisting he did not know his assailants.

G. O. P. Convention hall, as seen during the most exciting moments of the session, when the Wisconsin delegates refused to stand during a demonstration staged at the mention of the name of President Coolidge.

### THE CENTRALIZED MAYOR COUNCIL PLAN

Under this form of municipal government, the Mayor is elected by the people on a partisan but usually on a non partisan ballot. No other administrative officials are elected except perhaps an auditor or comptroller. The council is small in number, elected either by wards or at large. Confirmation by the council in administrative appointments is not required, the Mayor having the appointive power as well as the power to veto all measures that come up.

The administrative services are organized into five or more departments, each headed by a director appointed by and responsible to the mayor.

The rank and file of city employees are usually under civil service.

The arguments that have been advanced generally for this form of government are as follows:

The chief executive, the mayor, is elected directly by the people to whom he is responsible. He is given full control of administrative policies. The people look to him as their leader whom they can hold responsible in all matters pertaining to the administration of civic affairs. There is separation of legislative and administrative departments. Because of the short ballot, the people are able to know well the candidates for council for whom they vote. The mayor cannot "pass the buck" because he has been given power sufficient to perform his promises.

Arguments advanced against such a system are as follows: The mayor is usually a politician elected because of personal popularity or because he stands for certain general policies or plans of public improvements. He is rarely a good administrator of the details of city business. These details deserve the full time attention of a high calibre executive, whereas the average mayor has to spend much of his time in taking care of his political interests.

The mayor, and this is truer of so called independent mayors as well as the one classed as a politician, comes to his work without preparation or experience in the highly specialized work of the city. He is an amateur at the head of a big business. As soon as he learns the ropes, his term expires and a new man is elected who has to pass through the same educational process.

An elected mayor has to be guided by political considerations. Even the best of them have generally incurred campaign obligations which must be met by patronage.

The same is true of department heads who change with the mayor. The administration therefore cannot be free of politics.

(The next discussion, which will appear tomorrow will be the City Manager Plan, arguments pro and con being given.)

### WEEK END STORM CLAIMS VICTIMS IN THE DAKOTAS

SIOUX FALLS, S. D., June 16.—Fatalities in week end storms are estimated from one to twelve. More than twenty were injured, and more than half a million damage was done to telegraph lines and to buildings.

### HOLD UPS DISCUSSED

KANSAS CITY, Mo., June 16.—Methods of thwarting operations of payroll bandits in Kansas City, were discussed at a meeting of bankers, insurance men and representatives of industry today. Recent hold ups of paymasters and bank messengers here has resulted in an alarming amount of money being lost, insurance companies declared, and demanded higher rates for protection unless acceptable means of checking the robbers are arranged.

### AMERICA'S REPLY TO JAPANESE HANDED TO MINISTER

WASHINGTON, June 16.—The American reply to the Japanese protest against the American exclusion act will be handed to Japanese Ambassador Hanibara by Secretary Hughes today. Publication of the text will probably be made Thursday. The contents of the note are believed to conform with previous forecasts.

### THE WEATHER

East Texas—Tonight and Tuesday partly cloudy and continued warm. West Texas—Tonight and Tuesday generally fair and continued warmer in Panhandle tonight.

### 300 AMERICANS SET SAIL FOR ATHLETIC GLORY

By FRANK GETTY (United Press Staff Correspondent)

NEW YORK, June 16.—A little American expeditionary force, some 500 strong, sails today for France.

The transport is the steamship America, the goal, the athletic supremacy of the world, to be won at Columbus Stadium in Paris in competition with forty-one other nations.

The athletes who make up the little army bent on Olympic conquests, although there are some old familiar faces among them, are for the most part making their first appearance in these international games.

School and college stars must be dependent upon by a larger degree than ever before to carry the shield of the United States to victory and keep the flagstaff at the stadium shiny as a greased pole from hoisting the Stars and Stripes so often.

Today's contingent which sails to tell Lafayette, paraphrasing Pershing, "we are here," comprises 110 track and field stars, 42 men swimmers and water polo players; 24 women swimmers and divers, 18 swordsmen, 2 women fencers, 25 boxers, 15 oarsmen, 16 wrestlers, 11 gymnasts, 12 coaches, 10 managers, 10 trainers, 6 rubbers, besides officials and some 250 friends, relatives and admirers of the athletes.

Only 20 of those track and field stars making the trip this year did so in 1920, when the American team went to Antwerp.

The team this year looks stronger than any that yet has sailed in quest of Olympic honors. In the sprints this country has an array of talent which should ensure victory in both the 100 meters and 200 meters event, as well as the 400 meter relay. There is no doubt that Jackson V. Scholz of the New York A. C. is the fastest man on his feet today.

### WIFE SLAYER SOUGHT

WITTENBERG, Wis., June 16.—Authorities today telegraphed police in every city in the state to hunt for George Cummings, wanted in connection with the slaying of his bride of a week. The woman's nude body was found in a shallow grave by farmers near a tourist camp here.

### WARREN DENIES RUMOR

DETROIT, June 16.—Ambassador Charles E. Warren denied reports that he expected to resign the post of Ambassador to Mexico.

### STARTLING IF TRUE AND IT IS TRUE

SAN ANTONIO, Texas, June 16.—The automobile is the basis of more evil than any other single agency, Juvenile Judge McClosky told members of the ministerial alliance in an address here.

Fifty per cent of the moral delinquency here and in other places may be traced to unchaperoned automobile rides "at all times of night" the jurist stated.

"Why will parents continue to misplace confidence in their children when the folly of bootleg rum, coupled with a mixture of the wild tendencies of our present day youth?" Judge McClosky asked his audience.

### BAD MAN CAPTURED

MUSKOGEE, Ok.—Patrons of a wild west show here were given a real frontier thrill when Charles Cottonier, an alleged bad man, was captured in the arena after a gun fight with sheriff's force. Spectators thought it was part of the show until bullets started to whiz past.

## Nero Out Neroed By Rich Students Says Minister

CHICAGO, June 16.—Nathan Leopold and Richard Loeb, millionaire youths, "out-Neroed Nero" in their cold blooded murder of Robert Franks, 14-year-old school boy, Rev. Josiah Sibley, pastor of the Second Presbyterian church, declared in his Sunday sermon.

"Here in Chicago, under the eaves of a splendid university have two apparently brilliant boys out-Neroed Nero in the cold blooded, premeditated way in which they maintained that they murdered an unsuspecting boy to gain a few thousand dollars that they did not need," Dr. Sibley said.

"Is this modern education, producing such as this? Shall education like a Frankenstein monster destroy the very people who have created it? Is education not worthy the confidence we place in it? Have we been educating our children only to make monsters of them?"

"We must recognize the fact that education is not the saving salt of society unless it preserves its savor and if it has lost its savor it is more than useless?"

The Rev. John Thompson, pastor of the Chicago Temple (Methodist)

### Wires Are Cut And Situation Is Looking Bad

MEXICO CITY, June 16.—The British legation remained in a state of siege surrounded by secret service agents and police. The food supply was cut off and telephone wires were cut. H. C. Cummins, British semi-official representative, will probably be given 48 hours to leave the country after Britain refused to remove Cummins at Obregon's request. Cummins locked himself in the legation and declared that he would not leave. Cummins' withdrawal is desired because of a long series of actions which Mexico regards as hostile.

### COMMUNISTS ARE KICKED OUT BY FARM LABORERS

ST. PAUL, June 16.—The Communist party, attacked so strongly by Senator LaFollette, was kicked out of the Farm-Labor Third Party convention on the eve of its assembly. Organizers of the convention served notice upon communist delegates that they could not enter the convention under the banner of their party. Communists, however, as members of various trades unions, will be permitted to participate in the gathering if they present their credentials from their unions.

### WEST TO RECEIVE RELIEF OFFICIALLY

WASHINGTON, June 16.—The full est possible relief will be extended settlers on government reclamation projects in the west despite the failure of legislation to pass, the Interior Department announced.

### BANDIT LEADER CAPTURED

CHICAGO, June 16.—Recovery of the \$3,000,000 in cash and securities stolen in the hold-up of the Chicago, Milwaukee & St. Paul mail train near here Thursday night, is assured, Chief of Police Collins declared today as he directed a hunt for three men, held the ring leaders of the bandit gang which committed the daring robbery. Seven men and three women are already under arrest and part of the loot is in the hands of the police. One of the prisoners was identified as James Murray, politician, and said by police to be one of the leaders in the beer running industry. Police said they believe he was a leader in the hold up of the train.

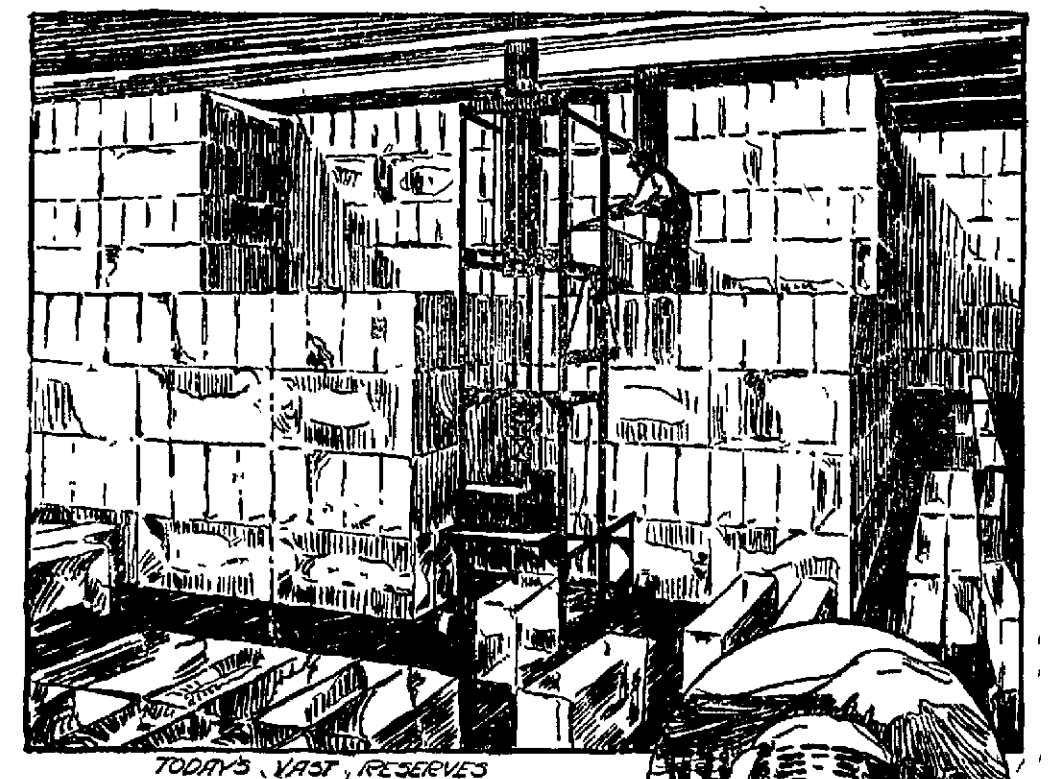

K. P. LODGE HOLDS MEMORIAL DAY SERVICE IN MEXIA

The K. P. Lodge of Mexia observed Memorial day Sunday At 8:30 in the morning, a committee from the lodge went to the local cemetery and decorated the graves of all deceased members. Flowers were provided for that purpose and the committee composed of David Murphy, J. P. Anderson, J. Frank Cogdell, Chester H. Machen, Kyle Stewart, Lotus Stanford, N. B. Hyden, Aubrey Kindred and N. P. Houck went carefully through the city of the dead and placed these floral offerings upon all graves known to mark the last resting place of members. It may have been that some were overlooked but Major Houck states that it is true, it was unintentional. It was the purpose and hope of every one of the committee not to overlook a grave. The committee membership was composed of some members who have been present at the burial of most every K. P. buried in Mexia.

The members to have died the past twelve months were H. M. Johnson and Jas. S. Stanberry.

At 8:30 Sunday night the lodge gathered at the Methodist church for the annual memorial service, the sermon being preached by Rev. W. B. Andrews. Most of the K. P. present were seated in a section together. The minister preached a splendid memorial day sermon from the text found in First Corinthians XV, 54, 57 "The sting of death is vain, but thanks be to God, which giveth victory through our Lord Jesus Christ."

PUBLIC HEALTH NOW MADE MORE SECURE BY CREATION OF GIANT ICE RESERVES

Back in the dim past when man struggled to lighten some of life's burdens, the idea of refrigeration first took form. Slaves of the ancients carried snow from the misty mountain peaks to chill their masters' wine and foods in the dead of summer. Down the ages one idea followed another — harvesting of natural ice, its storage for hot weather use, then manufacture of artificial ice—until today the ice industry forms a colorful chapter in the history of world commerce.

Millions of tons of ice, manufactured in some of the finest structures large and small found in any industry, are stored against demand of the hot months. As an indication of the industry's gigantic task, half a ton of ice must be provided each year for every man, woman and child in America. This is the average necessary for preservation of foodstuffs in transit, in warehouses, restaurants, hotels, shops and homes, and in supplying the many other needs incident to public health and general welfare.

Importance of the colossal ice storage facilities can be seen in the fact that it would be utterly impossible for the industry, even at its present highly efficient stage, to manufacture in July enough ice to fill the huge demand of July. But with the modern storage and distribution methods, the shortages of the past are no longer experienced. The industry must and does always anticipate a hot summer and maximum demands, thus protecting the nation's health.

Scientific research and the genius of machinery manufacturers are factors in the present high state of the industry whose remarkable expansion has meant the surmounting of many obstacles. Two thousand leading dealers are now members of the National Association of Ice Industries. Holding such membership means they are pledged to the highest public service it is possible to render.

TEXAS TABLOIDS

BRYAN.—A. E. Withers, Jr., of Bryan, died in a local hospital Sunday of injuries received when the automobile he was driving overturned after a wheel collapsed.

AMARILLO.—Clarence Rutherford 24, died here Sunday as a result of injuries received when an automobile turned over Saturday night, and his companion, Barnard Leithusser is in a critical condition as a result of the accident.

GREENVILLE.—Fire starting in the rear of Perkins Brothers company store Sunday, spread to adjoining buildings and before it was checked, had caused \$200,000 damage. The store and the Colonial theatre adjoining it are a complete loss.

DALLAS.—Heat records were smashed throughout Texas Sunday when the thermometer soared to new heights. Dallas reported a high mark of 102; Fort Worth, 104; San Angelo, 108, Abilene, 103; Sweetwater, 106. No relief was in sight for today.

ONCE A CHIFFON, NOW IS CHAMPION CHINER

TORONTO, Ont.—Crippled from birth and a world's champion athlete at the present time is Hans Hart, a product of the steel district of South Chicago. Rotarians were told here this morning by Edgar E. Allen, president of the International Society for Crippled Children. The boy won his world's championship during the Junior Olympic games held simultaneously in many cities throughout the world during Boys' Week, sponsored by Rotary International. He chinned the bar twenty-seven times, the officials being required to lift him to the bar, his legs having been shriveled and useless from birth.

This is Rotary business day at the international convention of Rotarians in session here and discussion of the administrative affairs of the organization occupied most of the day's program.

DALLAS.—Frank Fennell, negro, was held in jail here today following his capture early Sunday after the slaying of Jack Kendall, white, a farmer of near Garland. Officers who captured the negro eluded a posse at Garland and brought their prisoner to Dallas for safe-keeping.

Something More!

After meals you want something more—a bit of sweet with a change of flavor. WRIGLEY'S is that "something more" and it's more than that! It is a great aid to your good health, as medical authorities say.

This is from a recent book on health:

"Many physicians now recommend gum chewing . . . for a better and more complete change of the starches into dextrin."

WRIGLEY'S after every meal

—means that your digestion is aided while your pleasure is served; teeth and digestion both benefit.

Your choice of several flavors, all of the WRIGLEY quality—sealed in its puny package.

Wrigley's makes the next cigar taste better

FARMER STRIKES GOLD, SO HE ABANDONS THE PLOW

(By International News Service) CHICAGO, N. Y., June 16.—Historic Cherry Valley today has provided another thrill for Central New York folk. Gold has been discovered on the farm of Paul Luegmann, in the town of Reuben near the Cherry Valley town line.

Luegmann was digging to make a pond on his farm when he found the gold in situ. He declared to be paying gold in the soil also contains silver. It is a deposit of iron, copper, lead, silver and gold.

Samples of the earth which he sent to New York City showed gold, silver, copper, lead, and silver, 2 1/2 ounces to a ton.

Luegmann immediately set to work on a way to extract the precious metal from the earth, at the least expense.

He has worked out a method where by he makes his own copper plates and silver plates from one of his own hard working farm about two cents each.

He isn't sure if whether his find will profit him, but he means to use every effort to make it produce more than he has been able to produce in farming. Meanwhile real estate in the neighborhood of his farm has skyrocketed in value. Land that was formerly considered sterile cannot now be bought at an average of \$1000 an acre.

FASHION DECREES THE WAISTLINE

By HEDDA HOYT (Fashion Editor of the United Press) (Written for the United Press) NEW YORK, N. Y., June 11.—It's an all wind that blows no one good.

At least this is so understood, but when Fashion Winds blow Changing short skirts to low There are words we would say if we could!

But consider the poor fashion writer When skirts grow a little bit tighter She hops to her knees. (She a monk on a tip of a Changing styles pay her fees the poet bligher!

We have fullness introduced into the skirt which takes us away from the strictly tube silhouette Skirt fullness is achieved by means of circular side panels, posed over a slender foundation, a full tunic front effect, inverted pleats which are left open from the knees to hem and other decorative means.

The Parisian silhouette of the moment is tight fitting lines to a point below the knees with a flaring hemline. Following this mode, three-quarter length coats are introduced, replacing full length ones. These are worn over frocks which have hem fullness, the fullness putting out beneath the three-quarter length coat some of the more dressy frocks and three piece suits have coats of five eighths lengths, that is, the coats extend within four or five inches from the bottom of the frock. Even evening wraps in Paris seldom extend the full length of the frock this season.

Fashion Changes Vying with the vivid toned evening frocks which have previously been described in fashion articles, comes the chiffon frock of pale tan or flesh shade. Several of the musical comedy shows on Broadway are featuring these flesh-toned frocks with remarkable success. Lady Diana Manners started the vogue by wearing this lovely pinkish-tan shade in "The Miracle" and it was extremely picturesque with her blond coloring. The leading specialty dancer in "Lollipop" dances in tan tulle which verges on a smoke shade. For the blond and light brown-haired person this color will be found extremely flattering.

The batteau neckline which is

## SPRINGFIELD LODGE ELECTS OFFICERS

At the regular meeting of Springfield Lodge No. 74, A. F. and A. M., held last Saturday night the following officers were elected for the ensuing year:

W. R. Tidwell, W. M.  
M. W. Anderson, S. W.  
S. R. Paylow, J. W.  
Julius Nussbaum, Treasurer.  
J. Frank Cogdell, Secretary.  
T. A. Griffith, Tiler.

Other officers will be appointed and the installation will take place on or about June 24th.

## ARMY PLANES TO STAGE BATTLE OF GETTYSBURG

(By International News Service)  
GETTYSBURG, June 16.—Several thousand United States Army soldiers and 100 army airplanes will stage the "Battle of Gettysburg," on July 4, as it would be staged under modern war fare conditions.

Last year a detachment of Marines, re-enacted the battle as it occurred when fought by the Blue and Gray forces.

Machines guns, tanks and modern barricades will be used in restaging the event this year. Thousands of visitors from all parts of the United States are expected to witness the modern exhibition of warfare.

One hundred airplanes, from scouting machines to bombers, are expected to whirl overhead, staging aerial maneuvers.

High officials of the Army and Navy are to attend the event, according to plans now under way.

Details of the "battle" are being worked out by army engineers, who are now scouting about in Central Pennsylvania for suitable landing places, where the planes may be refueled.

## TESTS OF CHLORINE GAS FOR COLDS WILL GO ON

(By International News Service)  
NEW YORK, June 16.—The recent experiments of Health Commissioner Dr. Frank J. Monaghan to cure "flu" by the inhaling of chlorine gas have been somewhat successful, the Commissioner stated recently.

"Two of those who volunteered for the experiment suffering with colds in the head," Dr. Monaghan said, "declared that they felt better, lighter and clearer after the treatment. Against this we must balance the mental reaction, which would tend to bring about just such a result."

"The initial test is only the beginning. We will go on with our experiments until we are convinced we have taken a false lead, or until claims for chlorine are proven. What a wonderful thing if it should turn out to be a positive cure."

People willing to be experimented on, who are suffering from colds or the "flu," according to the Commissioner, are conducted into an airtight room filled with a mixture of the gas and air, which they inhale for an hour.

## BLONDS MORE CAUTIOUS

PHILADELPHIA, June 16.—Blue-eyed, fair-haired people may be more adventurous and the first to go to war, as some authorities hold, but they are at the same time cautious and far-sighted if the fact that they head the list of life insurance policy holders means anything.

An examination of 100 policies picked at random from the files of the Provident Life Insurance Company of Philadelphia showed that far the greater number had blue eyes, brown or light brown hair, and fair complexions. Brunettes ranked second and a mixed of blonds and brunettes third.

Brown, light-brown and light hair led all the rest with fifty-nine. Dark-brown, dark and black totaled thirty. Only two of the persons to whom the policies were issued had gray hair; three gray mixed and one turning gray. There are none listed as bald or having red hair.

Fair, light and blond complexions topped the list with forty six; dark and brunett, twenty three, and medium, seventeen.

## U. S. TOO BUSY TO GROW OLD HAPPILY, SAYS MEDICAL MAN

CHICAGO, Ill., June 16.—How to grow old successfully was told today by Dr. H. H. Drysdale, Cleveland, to the convention of the American Medical Association here.

The "frenzied financial habit is responsible for the unsuccessful age," he declared.

"It won't allow a patient to forget his responsibilities, and he must do that if he's to prosper in health," he explained.

"The national sin of overeating is another barrier to happy old ages. It's one of the heaviest burdens an elderly man can have."

But overeating may decrease because of prohibition, he added, declaring that alcohol, taken before meals, had been an important cause of gluttony.

"The advent of prohibition, with the disappearance of chronic alcohol cases, will do much to lower the death rate," he declared, and he warned the physicians:

"Make no compromises with such patients or you will fail in your mission. Your duty is to appeal to such patients' reason for a sane and rational mode of life."

America is in the midst of an "epidemic of injuries," Dr. J. Howard Beard of the University of Illinois, Urbana, told the convention.

"Railroad crossing tragedies, auto accidents, exhaust gas poisonings, caused by motor cars, industrial accidents and suicides caused by the strain of modern city life are taking the place of the old time menaces to life," he said.

"When Gorgas drained yellow swamps, when Pasteur discovered vaccines, when Lister developed aseptic, surgery, and hundreds of other doctors developed cures, the old menaces had been solved."

"But now the suicide rate is about that of the whooping cough death rate. About as many people were killed in crossing accidents last year as died of scarlet fever in 1920. Fatalities resulting from auto accidents in 1923 are about the same as those from diphtheria and scarlet fever combined. Accidental deaths in industries are about equal to the total of deaths from measles, whooping cough and diphtheria. There are 700,000 persons injured yearly in their occupations."

## BRITISH TEST AUTOMATIC AIRSHIP LANDING DEVICE

(By International News Service)  
LONDON, June 16.—Tests are being made by the British Air Ministry with an automatic device to enable aeroplanes to land at a much slower speed than is possible at present.

Recent inventions, like the "slot wing" and the "flap," have both attained this object up to a point but both these depend upon the pilot for their operation.

The new device is said to be automatic, consisting of a hinged plane along the trailing edge of the planes, held down by a spring. As the speed increases the force of the air causes the flap to automatically come up level and form a line with the rest of the wing.

When the machine slows down to

land the trailing edge comes down and presents an increased wing curve, thus enabling the machine to land more slowly.

## COTTON AND CORN LOOKING BETTER

Cotton crop conditions have greatly improved in the Mexico territory as a result of the hot and dry weather of recent weeks. From many communities surrounding Mexia, the report is that the farmers are clearing their fields of grass and weeds and the threat of many pests, which promised

to destroy the crop for a time, has been lessened. Cotton is taking on a healthy color and is growing rapidly. The corn crop, too, is looking much better.

The Woman's Missionary Society of the Methodist church is holding its regular monthly social meeting this afternoon. The gathering meets with Mrs. L. C. Strange at 404 Rusk street. Mrs. Strange is assisted by Mesdames

Ed Measles, Tom Densing, E. M. Strange and George Peyton.

## INABINE

**The Great Kidney, Bladder and Rheumatic Remedy and Blood Purifier**

Is Recommended for the Ordinary Curable Ailments of the Kidneys, Bladder and Urinary Organs and Rheumatism.

Aching pains over the hips, backache, sediment in the urine, irritation of the bladder, pain in urinating, puffiness under the eyes, highly colored urine, straining after urinating, swollen ankles and dimmed vision are symptoms of Kidney trouble and will result in serious trouble if not attended to.

We recommend Inabine as one of the best known remedies for the correction, and in most cases a permanent cure for the above, and we have hundreds of testimonials from satisfied customers who will verify it.

Inabine has been manufactured by us since 1898, and is guaranteed under the Pure Food and Drugs Act of June 30, 1906.

Our Guarantee: If after using one bottle according to directions you are not perfectly satisfied with its results, take the empty bottle to the druggist from whom you bought it and he will cheerfully refund the price paid.

"For Mexia, I WILL"

THE NEWS IS FOR MEXIA.

When civic leaders evolve a plan for city building they carry it to the newspapers, which in turn, carry it to the people. Day after day, like a triumphant army assaulting a rampart, the home newspaper tells the home people of the proposed home improvement, its purposes and what it can be expected to do to aid in community improvement. The voters perhaps pay little attention to the proposal at first, then interest is stirred, and finally, in a large majority of cases, the plan is accepted and the city grows. When one goes treading into the past in Mexia, the home newspaper, which for more than a quarter of a century, has been The Mexia Daily News, has had an important part in the progressive moves that have been made here. Such a medium, in Mexia or in any other town or city for that matter, merits the support of the City Government, civic leaders and friends of progress as well as the support of business men. When the public is to be informed of the contents of an important document or any other bit of news, the home newspaper in practically every instance is the very best medium to inform the public intelligently. People will read an article in a newspaper much quicker than they will the same item in a book. It is not always what you pay for a thing that counts but what you receive in return. If a home newspaper merits existence it is indeed worthy of the hearty patronage and support of the home community. This fact is acknowledged by the most thoughtful as well as by those who pass lightly over the subject.

The Mexia Daily News is one of the largest industries in Mexia today. Its pay roll is not exceeded by any establishment in the business district of the city. Its mission is to help build Mexia. It welcomes the cooperation of every club, of every civic body and of every institution and firm in the city, as well as the aid of the individual reading public.

The files of the News show thousands of dollars worth of space given annually since first it bloomed into being for the betterment of Mexia. The greater the support, the greater the service. The greater the service, the bigger and better will be Mexia.

The News is proud of its friends. Hand in hand with them, it expects to fight for right and advancement in the future as well as in the past.

THE EDITORIAL OF THE DAY

TEN COMMANDMENTS OF BUSINESS  
The Rotarian  
We do not have the pleasure of knowing Mr. L. V. Selluck, personnel manager of the Minneapolis Steel Works, neither do we know just how familiar he is with the Sermon on the Mount, but one thing we do know about him: that he is the author of a little business sermon that every employee might well hang over his desk.  
Ten Commandments of Business:  
Handle the hardest job first each day. Easy ones are pleasures.  
Do not be afraid of criticism—critique yourself often.  
Be glad and rejoice in the other fellow's success—study his methods.  
Do not be misled by dislikes. Acid ruins the finest fabrics.  
Be enthusiastic—it is contagious.  
Do not have the notion that success means simply money making.  
Be fair, and do at least one decent act every day in the year.  
Honor the chief. There must be a head to everything.  
Have confidence in yourself.  
Harmonize your work. Let sunshine radiate and penetrate.

RAIN DAMPENS MARRIAGE ARDOR OF LOVERS IN GREATEST CITY

By HELEN FOX  
(By International News Service)  
NEW YORK, June 16.—In the Springtime a young man's fancy lightly turns to thoughts of"—the marriage license bureau. Not so this Spring. According to Assistant Chief Clerk James F. Gannon of the Marriage License Bureau, licenses for May of this year were 500 fewer in New York than for the same month last year, and he thinks the same conditions prevail in other cities. And business so far in June has not been any too good.  
The best reason Gannon could think of for Cupid's inactivity was Winter's nasty hangover.  
"The merry month of May," according to reports from all over the country, was a decided misnomer. Chill winds blew instead of balmy breezes, and lovers strolling in the park were mercilessly pelted with rain. And young love, according to Gannon, is only a fair-weather friend.  
"Certain it is," said the marriage clerk, "if a young girl had her new Spring bonnet soaked with April showers—that came in May—while strolling with her sweetheart it was scarcely a happy event for the young man. And perhaps we weren't quite so rushed that rainy day."  
"And This Leap Year, Too?"  
"As compared with 2,133 licenses issued in May of last year, we only issued 2,133 last month. On the whole we are a good 500 under the mark reached this time last year—and this is Leap Year too—it would seem that the more woman urges the leap the more wary becomes the man.  
"But this is also a Presidential year. People aren't so sure of their jobs. Conditions are unstable. People are less ready to take the plunge." Gannon also expressed the opinion that the decrease in marriage might be caused to some extent by the decrease in immigration. He also said that, while marriage has become less popular, civil marriage, as compared with church weddings, have increased in popularity.  
"There'll be plenty of June brides, weather notwithstanding," was Gannon's hopeful forecast for the rest of this month.  
AGED 101 AND HAS CUT FOURTH SET OF TEETH  
(By International News Service)  
VALDOSTA, Ga., June 16.—"Uncle Tom" Johnson, 101 years old, is cutting his fourth set of teeth.  
And they are good ones, too.  
It was 40 years ago that "Uncle Tom" had his first "snags" extracted and at that time decided that he would "pull" it for the remainder of his life.

CENTRAL TEXAS PRESS  
By N. P. HOUX  
MEMBER  
TEXAS PRESS  
ASSOCIATION

"Cussin'" Teachers Not Wanted  
AUSTIN, June 14.—Dr. Herbert Bolton is returning to California without giving a definite answer on whether he will accept the University presidency. Slim chances of his accepting, it is believed. Dr. Bolton explaining why he told reporters to go to hell when a reporter pressed him for a statement, said he always told reporters this when he had nothing to say.—Press Dispatch.  
Such language is unbecoming in "any gentleman," much less one who is to be an example for our young men and young women, and the University Regents should promptly reconsider, and withdraw the invitation to Dr. Bolton, and thus serve notice on him and others who might be called to this high office that Texas wants no "cussin'" teachers in her institutions of learning.

Our new county jail looks so nice inside that if it wasn't just for the name of being in jail, we wouldn't mind a short stay behind the bars. It is now one of the best jails in the state and is modern in every respect.—Franklin Texan.  
If the juries will do their full duty it should not belong before there will be no room in the "parlor jail" for even a modest editor.

Co-operation has been defined as that process whereby three deuces will beat two kings.—Mineral Wells Index.  
That's not co-operation; that's luck and nerve.

One of the great troubles with the farmers today is that they have an idea that they can buy everything they eat cheaper than they can raise it. If this be true what about the people in Kansas who raise the bacon we eat, and the people in another states who raise the beans we eat, and the people in other states that raise the rest of the stuff we eat—what about them—how do they get along by raising this stuff?—Grosbeck Journal.  
They get along by not only raising and eating it but by selling it to others. Texas farmers can do the

But, to his surprise 15 years later he began "teething" and another complete set of teeth came in.  
These lasted a comparative short time, however, and ten years ago were removed.  
"Uncle Tom" felt "pecky" several weeks ago and went to a doctor. The physician declared his illness was due to "teething." He was cutting his fourth set of teeth. Ten of the last crop are already full grown and "Uncle Tom" says they are as good as his second ones.

same thing—if they will.  
The Japanese are becoming excited about the United States excluding Japanese immigrants, but there is no danger of war as long as the Japanese government remains cool and level-headed.—Riesel Rustler.  
And it looks like it is going to "remain." Those little fellows have been bluffing at Uncle Sam for several years, but as soon as they were "called" they seem to have "laid down."

One little, two little, three little, four little, five little, six little, seven little, eight little, nine little, ten little candidates all in a line; Darwin withdraw and then there were nine. Nine little, (accent on little) candidates staggering through 'til the July election and then there'll be two. Two little candidates under August's sun, a political sunstroke then there'll be one—which one?—Sam Miller in Mineral Wells Index.  
You asked us too quick. Wait until the "two little ones" are picked and then de don't mind venturing a "guess."

Law Defiers Getting Bold  
A Chicago gambler and bootlegger was killed the other day in a gun battle with policemen. Through his gambling and bootlegging operations this bad man had amassed a fortune and for that reason he had a large following among those of the underworld. His funeral was one of the most elaborate affairs of the kind ever witnessed in the city of Chicago. His body was placed in the finest casket that money could buy and \$20,000 worth of flowers were contributed from friends as a floral offering to the memory of their dead leader. The dead gambler was a foreigner by birth and nature and the same may be said as to his followers. Each and every one of them were defiers of the laws of this country and such cattle have no right to the privileges of a christian nation where people believe in government of law and order. Congress has the right and power to protect America against people, and so far as we are concerned, immigration laws cannot be made too strict.—Panhandle Herald.  
Amen.

Pepsinated Calomel Is Better than the Old-Time Sickening Kind  
It is gentle, imported English Calomel, combined with Pepsin and other helpful ingredients. It is mild but certain, causing no harshness or unpleasantness and will absolutely relieve indigestion, biliousness, bad colds, constipation and sick headaches. And best of all it does it at once—quickly and pleasantly. Take one small tablet at bed-time and you will get up hungry and feeling fine. Recommended by Bennetts Drug Store.

VALUABLES KEPT IN SAFETY VAULTS  
HOUSTON, Texas, June 16.—A local banker in charge of a safety deposit vault tells of two unusual angles to the otherwise staid business of safeguarding the public's treasures.  
"One man asked for a quart size lock box," the banker said. "He said his wife objected to his drinking at home, and he didn't dare keep the liquor at his office."  
"Another man pays \$60 a year for a box in which he keeps nothing but an old rusty horse shoe."

## AT LAST THE PEOPLE SEEM TO BE WAKING

DALLAS, Texas, June 16.—Establishment of an automobile drivers' school here is being considered by the Dallas Safety Council as one of the steps in a campaign to put an end to the fatalities following automobile accidents here. A total of 21 lives have been lost since January 1.

Other action under consideration includes:

Organization of a safety vigilance committee of 500 members to co-operate with city and state officials.

Placing of warning signs giving information about irregularities of roads.

Co-operation with local optometrists to reduce bad eyesight hazard and to make it necessary that every driver be licensed and pass eyesight examinations.

Appointment of a legislative committee to work for laws requiring all drivers to have licenses, to impound automobiles for frequent violations of traffic laws, and to eliminate driving by inefficient persons and children.

## FIRST PRESBYTERIANS TO PICNIC FRIDAY

The congregation, Sunday School and Epworth League of the First Presbyterian church will enjoy a picnic at the Reunion grounds next Friday, the 20th. All will assemble at the church at 3 p. m. and go in cars to the grounds, where an old-fashioned barbecue dinner will be spread at 6 o'clock. All who have cars are asked to bring them in order that those who have none will have a way to go. Baskets will be furnished by the members with the trimmings that go with a barbecue.

## NEW EXPRESS AGENT ARRIVES IN MEXIA

E. C. O'Bannon, Inc. of Bryan, Texas, has been elected as agent for the American Express company here. Mr. O'Bannon is a man of family and will be a welcome addition to our city. He comes with a letter of introduction from F. S. Park, a former honored citizen of Mexia, asking the writer to help him get located in a home in a good neighborhood.

## KNIGHTS TEMPLAR MEET TOMORROW NIGHT

Regular meeting of Order de Leon Commandery, Knights Templar, tomorrow (Tuesday) night. Some important business requiring attention, and all officers and members are urged to attend. Visitors are always welcome.

J. D. ARRINGTON, E. C.

## PIONEER NEWSIES TO MEET TEAGUE

The Teague Boy Scout Troop No. 1 will give the Pioneer Newsies a Tuesday day at the Reunion grounds, a black and white picnic. The local boys will give the Teague team a return game at a later date.

The report comes that bobbed hair is going out of style. So one of the ladies who had her hair bobbed in 1920 and who has been noted in the fashion press, declares that she has a little surprise that the cut she has decided to wear is but the time.

M. J. S. Miller was for some time the only one in the city who had a National at the city was in the city.

If you have a home, it is a good idea to have a home newspaper.

Advertiser is the key note of business success.

## STOP THAT CRYING

It is a crying shame for a mother to have a crying child. The only way to stop that crying is to give the child a good night's sleep.

For more information, write to the publisher of this paper.

## HUGHES PARK VISITED BY HUNDREDS OF ALL AGES SUNDAY AND CITIZENS DISCUSS PLANS OF DEVELOPMENT

Hundreds of automobiles, filled with kiddies and grown ups, drove by Hughes Park Sunday, upon noting in The News that the play ground equipment was ready for use. Grown up visitors included dotting parents with their little girls and boys, anxious for them to have a place for the development of their growing bodies and bodies and others simply curious to see what had been done here for the children and for the public by the action of a few and the gift of one family. The Mayor, Ernest Watson, J. K. Hughes, donor of the park site and equipment, Blake Smith and many other leading citizens drove by the park and, stopped to enjoy the sight of more than hundred children at one time enjoying "trying out" every one of the forty or fifty different play apparatuses. They were well pleased. "I have already got my money back," said Mr. Hughes in commenting on the pleasure that was his to hear the voice of laughter swelling up from so many little lips. Blake Smith made the observation that if one man could do so much for Mexia, surely the thousands of other citizens here would do all they could now to make the park the most serviceable to the community possible. He was sure that they would do something, if they only visited the place, saw what was being done and what was needed. Mayor Watson stated that any citizen not in favor of developing the park, as given by Mr. Hughes, should drive by and see for himself. The park may be developed into one of the most popular recreation centers of this part of the State. The city has acreage below the park and with the purchase of an undeveloped strip in between the Hughes park and the city's property Mexia could have a public park and play ground of something like 75 acres, which would be an asset increasing the value of all city property it is pointed out. With the public showing their interest in the Hughes park, it is believed that the enlarged park may soon result. R. D. Morgan who set up the equipment stated that

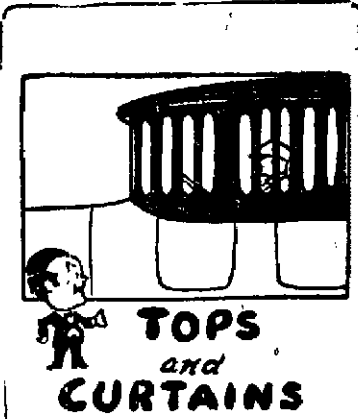

a street will be opened up on the North side of the park, which will provide a thoroughfare all around the park of twelve acres. The committee from the Civic League which has done most all of the work so far is as follows: Mesdames R. D. Morgan, Jack Womack, George Peyton and Mrs. W. W. Barnett, President of the Civic League.

The most successful concerns in the world are those who advertise and keep on at it.

Learn to play Babcock's Mah-Jongg. The game that has taken the country by storm. An experienced teacher will be in the city for a short while. Also arrange parties or classes in your home. For appointment, write Box 76, care Mexia Daily News. 12-7

## GRADUATE NURSE TELLS HOW TANLAC HELPED MANY OF HER PATIENTS

### SEATTLE NURSE IS FIRM BELIEVER IN TANLAC AND RECOMMENDS IT.

"From my long experience as a professional nurse, I do not hesitate to say I consider Tanlac the most efficient and natural stomach medicine and tonic to be had. It is undoubtedly nature's most perfect remedy," is the far-reaching statement given out for publication, recently, by Mrs. I. A. Borden, 425 Pontius Ave., Seattle, Wash., a graduate of the National Temperance Hospital, Chicago.

"I have used Tanlac exclusively for seven years in the treatment of my charity patients," said Mrs. Borden, "and my experience has been that for keeping the stomach, liver, kidneys and bowels functioning properly, and for toning up the system in general, it has no equal."

"About a year ago I had a lady

patient who could not keep a thing on her stomach fifteen minutes, not even water. I prevailed on her to try Tanlac and after the sixth bottle she could eat absolutely anything she wanted without the slightest bad after-effects.

"I had another patient who simply could not eat. I got him started on Tanlac and by the time he finished three bottles he was eating ravenously and able to work."

"Those two instances that are typical of the wonderful merits of the medicine. My confidence in Tanlac is unlimited."

Tanlac is for sale by all good druggists. Accept no substitutes. Over 40 million bottles sold.

Tanlac Vegetable Pills for Constipation, made and recommended by the manufacturers of TANLAC.—(Adv.)

## WHO'S WHO BARBER SHOPS

We wish to announce to the public that we have acquired the room formerly occupied by Mrs. W. A. Everett, next door east of our shop, and are taking out the partition and making one big barber shop out of the two rooms.

We are putting in a special department for ladies and children under the supervision of Mr. George Scroggins, who has recently completed the prescribed courses for this department. In this separate department, ladies and children can secure their barber work with all the conveniences and privacy of a modern city barber shop.

Watch for Announcement as to Opening.

## GUSHERS LOSE TO MARLIN AT NOWLIN PARK

Returning home for the game Sunday, the Gushers lost to the Marlin Butlers by a hectic game which switched from one side to the other. Gressett of Marlin was knocked out of the box in the sixth and Ludwick was knocked out by the Butlers in the next time up. Gressett's home run featured the winning streak of the visitors.

Marlin--	ab	r	h	po	a	e

## WACO REDSKINS FIRE M-IVER FOR LOSING PENNANT

News has been received here that Otto M-iver has been released as manager of the Waco Indians of the Texas Association.

President Dupuy is said to have considered that move the first thing necessary to stage a winning spur toward championship. "We are now three and a half games from the top but still have a fighting chance," he is credited with saying.

He said that the team was not lagging under the management of M-iver.

M-iver was given free reign on the field, he claimed, but has not had the Indians playing the brand of baseball they are capable of playing.

He was manager last year of the championship team at Sherman but

## AMERICAN GOLFERS TO PLAY IN BRITISH OPEN.

U.S. GOLFERS SAIL FOR ENGLAND.

En route to England are five well-known U. S. golfing stars bent on upholding the prestige of this country in the open championship tourney abroad. In the top row are, left to right, Al Espanova, Gene Sarazen, Johnny Farrell; bottom row, Gilbert E. Nichols and Walter Hagen.

## TAKE PART IN OLYMPIC TRYOUTS.

CHAMPION SWIMMERS WILL

Girl swimmers from every section of the United States and Hawaii took part in the Olympic swimming tryouts at Scarborough-Hudson, N. Y. Seated, left to right, are Carolyn Smith, Alma Mann, Florence Briscoe, Kathryn Brown, Carol Fletcher, Bettie Becker, Helen Meany, Aileen Riggan and Lillian Stoddard. Standing, left to right, are Sybil Bauer, Ida Schultz, Ethel McGary, Doris O'Mara, Peggy Williamson, Minnie De Vry, Ethel Lackie, Getrude Ederle, Frances Corwells Shroth, Mariechen Wehslau and Agnes Geraghty.

## Mexia Strengthens With Addition of Country Williamson and Temple Gets Star in Storey

Jinx Tucker in The Waco News Tribune says:

The Mexia team after threatening to come from behind to nose out the leaders in the first half, dropped back after getting within a game and a fraction of the first division. The Corsicana Oilers stopped the drive of the Mexia club after the Gushers had won a series from Marlin and another from Waco. The Gushers after losing two out of three to Corsicana journeyed to Austin to drop another series and are now getting set for the second drive. The Mexia pitchers are now doing much better than they did earlier in the season. The addition of Country Williamson, Ned Seely and others has also given this club strength.

The addition of Roy Storey to the Temple team gives Manager Rankin Johnson one of the greatest offensive clubs in the league. When Sweet Lind gets back in the game, Johnson will be able to present a wrecking crew second to none in class D baseball of the states. Brown, Lind, Storey and Rube Liessner batting in rotation are apt to cause many T. A. hurlers heart-aches before the close of the second half. Lind, Brown and Storey should hit over .300, and while Liessner will not bat within the charmed circle, his ability to hit the old pellet so far makes him a dangerous man indeed.

**SEEK SUICIDE AS ONLY RELIEF IN VIENNA**

VIENNA, (United Press).—A new wrinkle in suicides was demonstrated recently in Vienna. Tired of trying to eke out a hand-to-mouth existence in a city where the cost of living is already high and becoming higher, a young woman and her sweetheart rode together on their bicycles over a steep bank into the Danube. The tragedy was witnessed by some fishermen who were at work nearby; but rescue was impossible as the suicides were already far down stream before the fishermen could reach the spot. It is more or less of a red-letter day on the

## DOUBLE-BAGGER IN SEVENTH BAGS GAME

## BRAZIL'S NAVY OLD; U. S. MISSION AIDING

RIO DE JANEIRO, Brazil (United Press).—The Brazilian navy is gradually being reorganized, with the assistance of a mission from the United States navy. President Bernardes is averse to spending any large sums on the navy, although Brazil has a vast coast line. With the exception of two battleships, the Brazilian navy is composed of antiquated and in part obsolete vessels. Of her 10 destroyers, 8 are now in the drydocks for repairs.

Keep on telling 'em and you keep on selling them.

### NOTICE OF CHARTER ELECTION

An ordinance ordering an election in the City of Mexia, Texas, to be held on the 7th day of July, 1924, for the purpose of submitting to the qualified voters of the City of Mexia, Texas, for the adoption or rejection of the proposed charter, prepared and framed by the Charter Commission heretofore elected, and designating the places at which said election is to be held, and appointing presiding officers thereof and declaring an emergency.

WHEREAS, on the 11th day of February, 1924, the City Commission of the City of Mexia, Texas, duly enacted an ordinance, submitting to the qualified voters of said City, at an election ordered and held for the purpose, on the 18th day of March, 1924, the question: "SHALL A COMMISSION BE CHOSEN TO FRAME A CHARTER?" and also providing for an election of fifteen members of a charter commission in case a majority of the votes cast at such election should be in favor of the choosing of such a commission, and which ordinance was duly approved and published and notices of such election were duly given as required by law; and

WHEREAS, said question was duly submitted and voted upon at said election in said city on said date, and the majority of the qualified voters voting at such election voted in favor of the choosing of a commission to frame a charter, and also a majority of the qualified voters voting at said election, voted in favor of fifteen citizens of said city to compose said Charter Commission; and

WHEREAS, said election was duly and legally held on the said 18th day of March, 1924, and results of said election were duly certified and returned to the City Commission by the proper election officers; and

WHEREAS, on the 21st day of March, 1924, this commission considered the several returns and canvassed the same, and found that there were cast, at said election, six hundred twenty-seven (627) votes, of which number five hundred five (505) votes were cast for the choosing of a charter commission, and one hundred twenty-two (122) votes were cast against the choosing of a charter commission, and this commission thereupon, by resolution, duly entered, declared that the proposition so submitted was sustained and adopted by a majority vote of the qualified voters of said city, voting at said election; and

WHEREAS the City Commission of the City of Mexia, Texas, has examined into and investigated the regularity of the proceedings for said election and finds that the same was duly and legally held, that the notice required by law to be given has been duly and legally given, and that said election was conducted in strict conformity with all the requirements of law; and

WHEREAS, each and all of said fifteen citizens so elected, duly qualified as members of said charter commission and met and organized to frame a charter for the City of Mexia, Texas, and heretofore, on the 27th day of May, 1924, as such commission, signed such proposed charter and duly provided for the submission of the same to a vote of the qualified voters of said City, at an election to be held upon the question of the adoption or rejection of such charter upon the 7th day of July, 1924, and

WHEREAS, the said Charter Commission provided that the present City Commission shall call an election for such purpose; and

WHEREAS the said Charter Commission will ratify and confirm and make the enactment of this ordinance its act and deed, and will make such ordinance its order for such election, all of which will be evidenced by the signature of the members of said Charter Commission appended hereto under the words "APPROVED BY CHARTER COMMISSION"; therefore, THE CITY COMMISSION OF THE CITY OF MEXIA, TEXAS

Section 1 That an election shall be held in the City of Mexia, Texas, on the 7th day of July, 1924, at which the following proposition shall be submitted:

"Shall the charter reported by the Charter Commission to the City Commission of the City of Mexia, Texas, on the 27th day of May, 1924, and which had been prepared by the Charter Commission duly elected by the qualified voters of the city of the 18th day of March, 1924, be adopted as the charter of the City of Mexia, Texas, as contemplated and authorized by the Constitution and laws of the State of Texas, including Chapter 147, Acts of 1913, Regular Session?"

Section 2 That the polling places and presiding officers of said election shall be, respectively as follows: the polling place shall be at the City Hall, in the City of Mexia, and W. B. Kendrick is hereby designated as presiding officer.

Section 3 That said election shall be held under the provisions of Chapter 147, Acts of 1913, Regular Session, and all persons qualified to vote in said City under the laws of this State regulating general elections shall be allowed to vote.

Section 4 That the manner of holding said election shall be governed by the general laws of the State of Texas, regulating general elections, when not in conflict with the provisions of the law hereinabove referred to.

Section 5 All voters desiring to adopt a charter so prepared and reported by the Charter Commission shall have printed on their ballot the following:

OFFICIAL BALLOT  
"For the adoption of the Charter prepared by the Charter Commission duly elected on the 18th day of March, 1924, and which was reported by said Charter Commission to the City Commission of the City of Mexia on the 27th day of May, 1924."

And those opposed shall have on their ballots the following:  
"Against the adoption of the Charter prepared by the Charter Commission duly elected on the 18th day of March, 1924, and which was reported by said Charter Commission to the City Commission of the City of Mexia on the 27th day of May, 1924."

Section 6 That the action of the aforesaid Charter Commission in calling the election for the purpose hereinabove stated, and in all other respects with reference to the framing and submitting of such proposed charter, are hereby ratified and confirmed, and the said Charter Commission, or the members thereof, shall ratify and confirm all things done by the present City Commission of the City of Mexia, Texas, with respect to the matters and things dealt with in this ordinance, and shall make the same then act and deed by subscribing their respective names hereunto under the caption, "APPROVED BY CHARTER COMMISSION," and such names as so subscribed shall be published as a part of this ordinance.

Section 7 A copy of this ordinance shall be sufficient notice of said election, and thirty (30) days notice of the time and place of holding the said election shall be given by posting certified copies thereof at the places designated for holding said election at least thirty (30) days prior to the holding of said election, and by publication of such notice not less than thirty (30) full days from date of election.

Section 8 The fact that the City of Mexia is at the present time without a charter, and that the public interests require the adoption of a charter, creates an emergency and an imperative public necessity for the suspension of the rules requiring ordinances to be read upon more than one day and for the immediate taking effect of this ordinance, and such rules are hereby suspended, and it is ordained that this ordinance shall take effect immediately upon its passage and approval.

Passed and approved this 27th day of May, 1924.  
W. B. WATSON,  
Mayor of the City of Mexia, Texas.

# ROTARIANS ARE INTERESTED IN YOUTH OF MEXIA

At the Rotary club last Thursday, a program was conducted more nearly according to the suggestions of Rotary International than any heard in some time.

At least that was the opinion of many who have since expressed themselves on the subject. It was a Rotary program conducted by local Rotarians, with an object in view and with some prospects of finally accomplishing that purpose.

The report of Secretary J. W. Elliott showed that the attendance on the occasion was better than at any time in several weeks.

J. D. Arrington presided over the program, which consisted of enthusiastic club singing, Rotary songs being sung, led by George Bell; a classification talk and another talk on the spirit of Rotary, under the title "The Hobby of Rotary."

Albert H. Berry, who left that afternoon for the annual Rotary convention at Toronto told something of the plans for the convention and stated that he would bring his report back within about three weeks.

E. L. Crow, delivered a classification talk on Cotton. He traced the circuit followed by a bale of cotton from the time that it arrives in town, brought from the field and gin, to the last trip it takes across the Atlantic. He showed that cotton makes several trips in various forms across the Atlantic, until it is finally worn out and there is no future use for it. It was a real educational talk and one which held the close attention of his auditors. He concluded by congratulating the citizens upon their step to start the cotton mill industry in Mexia.

"Boys" was pointed out as the hobby of Rotary. The speaker stated that Rotary has a real hobby; that at the convention last year in St. Louis, this hobby became very evident. Edgar Guest, the great poet who writes so feelingly of boys, stood for hours before the big body of big men and thrilled them with his poems on boys. As he gave these poems, the eyes of Rotary were moist with tears and the hearts of Rotarians were touched as never before in behalf of boys. Hence it will be surprising, if the clubs of the world don't have a great report to make at Toronto regarding the greater service rendered in behalf of Boy Welfare the past twelve months.

Rotarians are interested in Boys because they are the hope of the community.

Following this program, a report was called for from the Boys Educational Committee. J. Sanford Smith stating what had been done. Mr. Smith stated that the Mexia Rotary club had assisted one Mexia boy through Texas A & M. this past year. President Hardy Eubanks urged that further subscriptions be made to the educational fund in order that the local club might do more for boys this coming year than ever.

## OIL MAN FROM PHILIPPINES

F. C. Edwards, representative of the Standard Oil Company, at Manila, P. I., has arrived at Detroit for a stay of about three months. He has joined six other Standard Oil men from the Far East, who are studying carburation and lubrication at the Michigan State Automobile School.

Patronizing home institutions of all kinds is being fair to those from whose patronage you expect to profit.

THE REASON for all advertising IS THE desire for greater VOLUME OF business NO ADVERTISEMENT is worth a CENT UNLESS the people read IT ALSO IT isn't worth much UNLESS IT creates favorable CONSIDERATION ADVERTISING IS cumulative and MANY A prospective purchaser IS READING ads today that will BUY LATER and be SUB-CONSCIOUSLY influenced to GO TO some certain store to BUY BECAUSE a good impression HAS BEEN made upon his mind THROUGH FAVORABLE ADVERTISING SO FAR as I can tell this little COLUMN IS the most widely READ OF any of my ADVERTISEMENTS BUT I WANT TO KNOW and to THIS END I am using valuable SPACE TO invite your criticism AND OPINIONS ALL READERS of this paper are INVITED TO tell me frankly WHAT THEY think of this COLUMN IF YOUR criticism is favorable I SHALL naturally feel GRATIFIED AND if it is UNFAVORABLE I promise to not LET MY feelings be hurt so then IF YOU are interested in ADVERTISING OR read it at all JUST DROP me a card and tell WHAT YOU think of this column BUT PLEASE sign your name for NO-WEIGHT whatever attaches to AN UNSIGNED communication ALSO IF you object to my using YOUR LETTER (without SIGNATURE) AS subject for a "COLUMN" PLEASE say so—ANYWAY WRITE me what YOU THINK for I am eager TO ADOPT the best plan I can GET FOR an aggressive campaign SINCE I fully expect to make MEXIA AS a jewelry center known ALL OVER Central Texas I THANK you.

—Patterson.

a large number of sovereigns from the Teague Grove. Mrs. Davidson presided at the meeting and introduced some of the many members she has secured for our organization the few days she has been with us. After these members were received into the order, the drill team of Teague put on the floor work which was enjoyed by all present. They proved to us what we could do if we only try, and it is our aim to have a drill team in our Grove in the near future. Those desiring to be in this team will please meet with us next Friday afternoon at 3 o'clock. If you are not a member and would like to become a member of the best fraternal insurance society, you may get all desired information from our clerk, Mrs. Mary E. Mayo.

We certainly enjoyed the visit of Mrs. Davidson and the Teague Sovereigns and hope they will come again. After the business meeting, dainty refreshments were served by the local Grove.

## BRITISH LEGATION BESIEGED IN MEXICO CITY

### DIVISION FORSEEN HIGHUP IN REPUBLICAN PARTY CAMPAIGN

#### Butler Perhaps To Be Shorn Of Much Of His Power

WASHINGTON, June 16.—A probable open break between President Coolidge and his secretary, C. Bascom Slemph, to be followed by Slemph's resignation, is widely discussed. Slemph is understood to have criticized the tactics of Coolidge's manager, William H. Butler, at the convention. Indications are that Slemph is finding his position increasingly difficult. It is understood that he demanded of Coolidge whether Coolidge repudiated more trust in Slemph or in Butler. An informal statement was issued later. Slemph declared that he had no intention of resigning, but expected to take a "very active part" in the Coolidge campaign. It is believed that Slemph, in a conference with Coolidge, succeeded in having Butler shorn of some of his autocratic powers.

#### PHILADELPHIA IS SCENE OF ORGIES THAT CLAIM MANY

PHILADELPHIA, June 16.—Poison liquor orgies which took a toll of scores of lives here last year broke out again over the week end, police reports show. Two are dead from drinking poison moonshine, twenty-three were taken to hospitals and four hundred were arrested for drunkenness.

#### STEPHENVILLE BOY DROWNED, DALLAS

DALLAS, Texas, June 16.—The body of Lee Purvis, who was drowned in Lake Bachman Sunday night, was recovered this morning. Purvis' parents live in Stephenville. Three other persons in the boat with Purvis when it capsized, were rescued.

#### WORLD FLIGHT LEADER ARRIVES AT TOURANE

By RAY G. MARSHALL (United Press Staff Correspondent) PEKIN, June 16.—Lieutenant Lowell Smith, commander of American round-the-world flight, arrived at Tourane yesterday rejoining his companions and the three flyers intended to depart together for Saigon today. The flight commander had been forced down at a little town on the coast of French Indo-China by engine trouble and the motor of his plane was completely wrecked. A destroyer took him a new motor, while the other pilots, Lieutenants Eric Nelson and Leigh Wade, proceeded on to Tourane. Reports that Smith had caught up with the others were received here by the official Government wireless.

#### CRAP GAME HELD UP

KANSAS CITY, Mo.—"Ten grand" was the amount obtained by robbers when they held up a crap game here. They got \$5,000 in cash from the tables and \$5,000 more from the players' pockets.

#### MONEY MARKET

NEW YORK, June 16.—Foreign exchange opened higher; demand sterling \$4.82 1-8; francs, .0551 1-2; lire, .0431; Belgian, .0478, marks 4.210 billion to the dollar.

### Brother of Mexia Lady Dies After Accident In Car

Friends of Mrs. C. F. Hostetter will regret to learn that her brother, A. E. Withers, Jr., was killed in an auto accident between Bryan and College Station last Saturday night. Mrs. Hostetter is bearing up bravely under the stress of the shocking news. The young man died at the Bryan hospital, in his home town Sunday morning at 7 o'clock. While running on the Bryan College road Saturday night, with his brother and another young man, one of the wheels of his car crushed and the car turned over several times. As the car overturned he was caught underneath and his chest crushed. He was carried to the hospital immediately but died a few hours later.

#### STATE AWARDS FOR TEXTBOOKS ARE APPROVED

AUSTIN, Texas, June 16.—All contracts and bonds made in connection with the awards by the State Text Book Commission for text books were approved by the Commission. All technical difficulties were straitened out.

#### TROOPER CULLEN AND BRENNAN KILLED BY GANGMEN

NEW YORK, June 16.—State Trooper Cullen, wounded when unknown assailants shot and killed Bill Brennan, heavyweight pugilist, died this morning. Two men are being held for the shooting.

NEW YORK, June 16.—Bill Brennan, who was only a "trial horse", as a pugilist, saved his money and started an eating and drinking club and early Sunday was shot to death supposedly by rum runners with whom he had fallen out.

There were few fighters who could knock Bill from his feet—he won ring fame by staying twelve rounds with champion Jack Dempsey—but the bootleggers' bullets ended his life and his sister and a State trooper fought vainly to save him. The assassins wounded the latter, probably mortally and fired at Miss Brennan. The shooting took place at the Club Tia Juana, a cabaret run by the pugilist who had retired.

Two men, Frank Rassi, alleged bootlegger and Terry O'Neil, pugilist, were captured by the police after they had beaten a police lieutenant unconscious, smashed their way to Broadway through locked doors and fled in a commandeered car with pistols at the driver's neck. The shooting of Brennan took place in the early morning. The customers had left his cabaret and he was sitting eating with his sister, a singer known as Shirley Sherman. A man entered and tapped him on the shoulder.

"Can I see you a minute, Bill?" he said.

Brennan was known to many whom he didn't know. "Sure," he answered and stepped into the hall way of his club, behind heavy portieres. Two shots reverberated through the vacant rooms. Bill was heard to cry out.

A friend in the State troopers who had been eating with him, James Cullen, leaped to his assistance and received a bullet through the neck. Brennan's sister sought to seize her brother's assailant and was shot at the bullet going wild.

The prize fighter had been shot in the chest and abdomen.

"I'm dying, Shirley," he gasped.

"For God's sake, you're not, Bill," she answered, trying vainly to stop the flow of blood from his wounds.

"I know I am," Brennan answered.

"Oh, my poor wife, my poor child," referring to his wife, Mary and a three and a half year old daughter.

The pugilist died in an ambulance, insisting he did not know his assailants.

#### LOYAL COOLIDGE STATES MILL AROUND

G. O. P. Convention hall, as seen during the most exciting moments of the session, when the Wisconsin delegates refused to stand during a demonstration staged at the mention of the name of President Coolidge.

#### THE CENTRALIZED MAYOR COUNCIL PLAN

Under this form of municipal government, the Mayor is elected by the people on a partisan but usually on a non-partisan ballot. No other administrative officials are elected except perhaps an auditor or comptroller. The council is small in number, elected either by wards or at large. Confirmation by the council in administrative appointments is not required, the Mayor having the appointive power as well as the power to veto all measures that come up.

The administrative services are organized into five or more departments, each headed by a director appointed by and responsible to the mayor.

The rank and file of city employees are usually under civil service.

The arguments that have been advanced generally for this form of government are as follows:

The chief executive, the mayor, is elected directly by the people to whom he is responsible. He is given full control of administrative policies. The people look to him as their leader whom they can hold responsible in all matters pertaining to the administration of civic affairs. There is separation of legislative and administrative departments. Because of the short ballot, the people are able to know well the candidates for council for whom they vote. The mayor cannot "pass the buck" because he has been given power sufficient to perform his promises.

Arguments advanced against such a system are as follows: The mayor is usually a politician elected because of personal popularity or because he stands for certain general policies or plans of public improvements. He is rarely a good administrator of the details of city business. These details deserve the full time attention of a high calibre executive, whereas the average mayor has to spend much of his time in taking care of his political interests.

The mayor, and this is truer of so called independent mayors as well as the one classed as a politician, comes to his work without preparation or experience in the highly specialized work of the city. He is an amateur at the head of a big business. As soon as he learns the ropes, his term expires and a new man is elected who has to pass through the same educational process.

An elected mayor has to be guided by political considerations. Even the best of them have generally incurred campaign obligations which must be met by patronage.

The same is true of department heads who change with the mayor. The administration therefore cannot be free of politics.

(The next discussion, which will appear tomorrow will be the City Manager Plan, arguments pro and con being given.)

#### WEEK END STORM CLAIMS VICTIMS IN THE DAKOTAS

SIOUX FALLS, S. D., June 16.—Fatalities in week end storms are estimated from one to twelve. More than twenty were injured, and more than half a million damage was done to telegraph lines and to buildings.

#### HOLD UPS DISCUSSED

KANSAS CITY, Mo., June 16.—Methods of thwarting operations of payroll bandits in Kansas City, were discussed at a meeting of bankers, insurance men and representatives of industry today. Recent hold ups of paymasters and bank messengers here has resulted in an alarming amount of money being lost, insurance companies declared, and demanded higher rates for protection unless acceptable means of checking the robbers are arranged.

#### AMERICA'S REPLY TO JAPANESE HANDED TO MINISTER

WASHINGTON, June 16.—The American reply to the Japanese protest against the American exclusion act will be handed to Japanese Ambassador Hanihara by Secretary Hughes today. Publication of the text will probably be made Thursday. The contents of the note are believed to conform with previous forecasts.

#### THE WEATHER

East Texas—Tonight and Tuesday partly cloudy and continued warm. West Texas—Tonight and Tuesday generally fair and continued warmer in Panhandle tonight.

#### 300 AMERICANS SET SAIL FOR ATHLETIC GLORY

By FRANK GETTY (United Press Staff Correspondent)

NEW YORK, June 16.—A little American expeditionary force, some 300 strong, sails today for France.

The transport is the steamship America, the goal, the athletic supremacy of the world, to be won at Columbus Stadium in Paris in competition with forty-one other nations.

The athletes who make up the little army bent on Olympic conquests, although there are some old familiar faces among them, are for the most part making their first appearance in these international games.

School and college stars must be dependent upon by a larger degree than ever before to carry the shield of the United States to victory and keep the flagstaff at the stadium shiny as a greased pole from hoisting the Stars and Stripes so often.

Today's contingent which sails to tell LaFayette, paraphrasing Pershing, "we are here," comprises 110 track and field stars, 42 men swimmers and water polo players; 24 women swimmers and divers, 18 swordsmen, 2 women fencers, 25 boxers, 15 oarsmen, 16 wrestlers, 11 gymnasts, 12 coaches, 10 managers, 10 trainers, 6 rubbers, besides officials and some 250 friends, relatives and admirers of the athletes.

Only 20 of those track and field stars making the trip this year did so in 1920, when the American team went to Antwerp.

The team this year looks stronger than any that yet has sailed in quest of Olympic honors. In the sprints this country has an array of talent which should ensure victory in both the 100 meters and 200 meters event, as well as the 400 meter relay. There is no doubt but that Jackson V. Scholz of the New York A. C. is the fastest man on his feet today.

#### WIFE SLAYER SOUGHT

WITTENBERG, Wis., June 16.—Authorities today telegraphed police in every city in the state to hunt for George Cummings, wanted in connection with the slaying of his bride of a week. The woman's nude body was found in a shallow grave by farmers near a tourist camp here.

#### WARREN DENIES RUMOR

DETROIT, June 16.—Ambassador Charles B. Warren denied reports that he expected to resign the post of Ambassador to Mexico.

#### STARTLING IF TRUE AND IT IS TRUE

SAN ANTONIO, Texas, June 16.—The automobile is the basis of more evil than any other single agency.

Juvenile Judge McCloskey told members of the ministerial alliance in an address here.

Fifty per cent of the moral delinquency here and in other places may be traced to unchaperoned automobile rides "at all times of night" the jurist stated.

"Why will parents continue to misplace confidence in their children when the folly of bootleg rum, coupled with a mixture of the wild tendencies of our present day youth?" Judge McCloskey asked his audience.

Closer watch over children by parents was urged by the speaker to put a stop to juvenile delinquency.

#### BAD MAN CAPTURED

MUSKOGEE, Ok.—Patrons of a wild west show here were given a real frontier thrill when Charles Cottonier, an alleged bad man, was captured in the arena after a gun fight with sheriff's force. Spectators thought it was part of the show until bullets started to whiz past.

### Nero Out Neroed By Rich Students Says Minister

CHICAGO, June 16.—Nathan Leopold and Richard Loeb, millionaire youths, "out-Neroed Nero" in their cold blooded murder of Robert Franks, 14-year-old school boy, Rev. Josiah Sibley, pastor of the Second Presbyterian church, declared in his Sunday sermon.

"Here in Chicago, under the eaves of a splendid university have two apparently brilliant boys out-Neroed Nero in the cold blooded, premeditated way in which they maintained that they murdered an unsuspecting boy only to gain a few thousand dollars that they did not need," Dr. Sibley said.

"Is this modern education, producing such as this? Shall education like a Frankenstein monster destroy the very people who have created it? Is education not worthy the confidence we place in it? Have we been educating our children only to make monsters of them?"

"We must recognize the fact that education is not the saving salt of society unless it preserves its savor and if it has lost its savor it is more than useless."

The Rev. John Thompson, pastor of the Chicago Temple (Methodist)

#### Wires Are Cut And Situation Is Looking Bad

MEXICO CITY, June 16.—The British legation remained in a state of siege surrounded by secret service agents and police. The food supply was cut off and telephone wires were cut. H. C. Cummins, British semi-official representative, will probably be given 48 hours to leave the country after Britain refused to remove Cummins at Obregon's request. Cummins locked himself in the legation and declared that he would not leave. Cummins' withdrawal is desired because of a long series of actions which Mexico regards as hostile.

#### COMMUNISTS ARE KICKED OUT BY FARM LABORERS

ST. PAUL, June 16.—The Communist party, attacked so strongly by Senator LaFollette, was kicked out of the Farm-Labor Third Party convention on the eve of its assembly. Organizers of the convention served notice upon communist delegates that they could not enter the convention under the banner of their party. Communists, however, as members of various trades unions, will be permitted to participate in the gathering if they present their credentials from their unions.

#### WEST TO RECEIVE RELIEF OFFICIALLY

WASHINGTON, June 16.—The full est possible relief will be extended settlers on government reclamation projects in the west despite the failure of legislation to pass, the Interior Department announced.

#### BANDIT LEADER CAPTURED

CHICAGO, June 16.—Recovery of the \$3,000,000 in cash and securities stolen in the hold-up of the Chicago, Milwaukee & St. Paul mail train near here Thursday night, is assured, Chief of Police Collins declared today as he directed a hunt for three men, held the ring leaders of the bandit gang which committed the daring robbery. Seven men and three women are already under arrest and part of the loot is in the hands of the police. One of the prisoners was identified as James Murray, politician, and said by police to be one of the leaders in the beer running industry. Police said they believe he was a leader in the hold up of the train.

blamed "craving for thrills" for the Franks murder.

The "craving for thrills" is one of the most serious perils of modern youth, Dr. Thompson told his audience.

"These two university graduates knew not the value of money. They every want was answered. They lost the stimulus and character building reaction that comes from struggle. Their intellectual brilliance and their lack of adequate moral idealism clearly proves that neither the individual life nor society nor civilization can be maintained on a minimum or moral energy. Parents should exercise a larger supervision over the reading of growing boys and girls."

With a growing staff of alienists examining the young confessed slayers of Robert Franks, chances for a bitter contest of scientific testimony are growing. The defense is making every effort to establish that Leopold and Loeb are insane and that they were not responsible for the killing. The State, meanwhile, is preparing to prove them "both morally and legally" sane and will attempt to have the boys hanged for the crime.

The trial opens August 4.

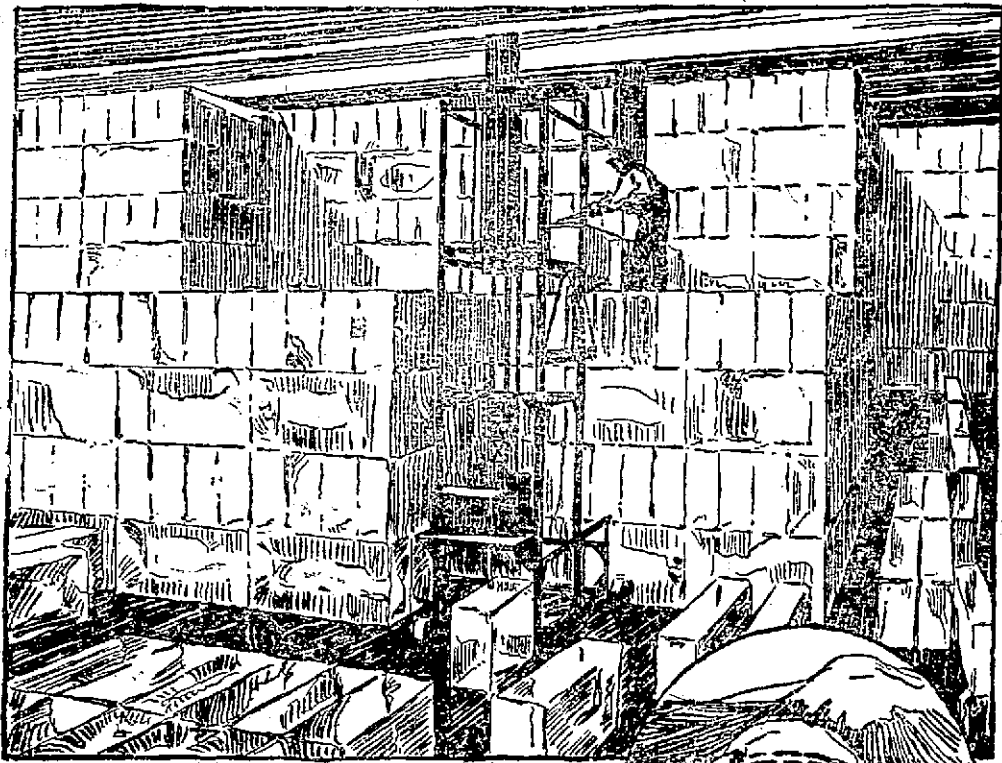

# K. P. LODGE HOLDS MEMORIAL DAY SERVICE IN MEXIA

The K. P. Lodge of Mexia observed Memorial day Sunday. At 8:30 in the morning, a committee from the lodge went to the local cemetery and decorated the graves of all deceased members. Flowers were provided for that purpose and the committee composed of David Murphy, J. P. Anderson, J. Frank Cogdell, Chestet H. Machen, Kyle Stewart, Lotus Stanford, N. B. Hyden, Aubrey Kindred and N. P. Houx went carefully through the city of the dead and placed these floral offerings upon all graves known to mark the last resting place of members. It may have been that some were overlooked but Major Houx states that if this is true, it was unintentional. It was the purpose and hope of every one of the committee not to overlook a grave. The committee membership was comprised of some members who have been present at the burial of most every K. P. buried in Mexia.

The members to have died the past twelve months were H. M. Johnson and Jas. S. Stanberry.

At 8:30 Sunday night the lodge gathered at the Methodist church for the annual memorial service, the sermon being preached by Rev. W. B. Andrews. Most of the K. P.'s present were seated in a section together. The minister preached a splendid memorial day sermon from the text found in First Corinthians XV, 56, 57: "The sting of death is sin, but thanks be to God, which giveth victory through our Lord Jesus Christ."

# PUBLIC HEALTH NOW MADE MORE SECURE BY CREATION OF GIANT ICE RESERVES

TODAY'S VAST ICE RESERVES.

Back in the dim past when man struggled to lighten some of life's burdens, the idea of refrigeration first took form. Slaves of the ancients carried snow from the misty mountain peaks to chill their masters' wine and foods in the dead of summer. Down the ages one idea followed another — harvesting of natural ice, its storage for hot weather use, then manufacture of artificial ice—until today the ice industry forms a colorful chapter in the history of world commerce.

Millions of tons of ice, manufactured in some of the finest structures large and small found in any industry, are stored against demand of the hot months. As an indication of the industry's gigantic task, half a ton of ice must be provided each year for every man, woman and child in America. This is the average necessary for preservation of foodstuffs in transit, in warehouses, restaurants, hotels, shops and homes, and in supplying the many other needs incident to public health and general welfare.

Importance of the colossal ice storage facilities can be seen in the fact that it would be utterly impossible for the industry, even at its present highly efficient stage, to manufacture in July enough ice to fill the huge demand of July. But with the modern storage and distribution methods, the shortages of the past are no longer experienced. The industry must and does always anticipate a hot summer and maximum demands, thus protecting the nation's health.

Scientific research and the genius of machinery manufacturers are factors in the present high state of an industry whose remarkable expansion has meant the surmounting of many obstacles. Two thousand leading dealers are now members of the National Association of Ice Industries. Holding such membership means they are pledged to the highest public service it is possible to render.

SLAVES OF OLD

# FASHION DECREES THE WAISTLINE

By HEDDA HOYT  
(Fashion Editor of the United Press)  
(Written for the United Press)  
NEW YORK, N. Y., June 14.—It's an ill wind that blows no one good, At least this is so understood, But when Fashion Winds blow Changing short skirts to low There are words we would say if we could!

But consider the poor fashion writer When skirts grow a little bit tighter She hops to her keys Like a monk on trapeze Changing styles pay her fees The poor blighter!

The straight, beltless sheath dress which blew in early this year has blown out again, for fashions are as changeable as the winds. The newest gowns that are shown in the smart shops all show some sort of fullness below the knees and many of them show some semblance of a low waistline. The tube-like, sheath gown proved to be unbecoming to most figures. Instead of concealing curves, it tended to reveal them. In other words, women have proven to themselves that they need waistlines, which brings us to the question of "what is a waistline?"

One would naturally infer that a waist-line is the equator line between the underarms and the hips, but, alas, this is not the case! A waist-line may be placed at the hips, at the bending point of the body, at the underarms or at the knees. It is Dame Fashion who settles the location of the waist-line, not the anatomist.

**Return to Waist Line**  
We began this season with no waist-line whatsoever, with unbroken, straight lines from neck to hem and having found this sausage-like silhouette unsatisfactory, we return to the waist-line that is placed at the hip. The new waistline may be just a seam which suggests the joining point of blouse and skirt, a huge flat bow placed low on one hip, or a narrow string belt.

Combined with a low waist-line

## Too Late to Classify

FOR SALE—Five good used Cord Tires at bargain. E. M. Strange, Hurdleston Hotel Bldg. 1637

we have fullness introduced into the skirt which takes us away from the strictly tube silhouette. Skirt fullness is achieved by means of circular side panels, posed over a slender foundation, a full tunic front effect, inverted pleats which are left open from the knees to hem and other decorative means.

The Parisian silhouette of the moment is tight-fitting lines to a point below the knees with a flaring hemline. Following this mode, three-quarter length coats are introduced, replacing full-length ones. These are worn over frocks which have hem-fullness, the fullness jutting out beneath the three-quarter length coat. Some of the more dressy frocks and three piece suits have coats of five eighths lengths, that is, the coats extend within four or five inches from the bottom of the frock. Even evening wraps in Paris seldom extend the full length of the frock this season.

**Fashion Changes**  
Vying with the vivid toned evening frocks which have previously been described in fashion articles, comes the chiffon frock of pale tan or flesh shade. Several of the musical comedy shows on Broadway are featuring these flesh-toned frocks with remarkable success. Lady Diana Manners started the vogue by wearing this lovely pinkish-tan shade in "The Miracle" and it was extremely picturesque with her blond coloring. The leading specialty dancer in "Lollipop" dances in tan tulle which verges on a smoke shade. For the blond and light brown-haired person this color will be found extremely flattering.

The batteau neckline which is

# TEXAS TABLOIDS

**BRYAN.**—A. E. Withers, Jr., of Bryan, died in a local hospital Sunday of injuries received when the automobile he was driving overturned after a wheel collapsed.

**AMARILLO.**—Clarence Rutherford 24, died here Sunday as a result of injuries received when an automobile turned over Saturday night, and his companion, Barnard Leithusser is in a critical condition as a result of the accident.

**GREENVILLE.**—Fire starting in the rear of Perkins Brothers company store Sunday, spread to adjoining buildings and before it was checked, had caused \$200,000 damage. The store and the Colonial theatre adjoining it are a complete loss.

**DALLAS.**—Heat records were smashed throughout Texas Sunday when the thermometer soared to new heights. Dallas reported a high mark of 102; Fort Worth, 104; San Angelo, 108; Abilene, 108; Sweetwater, 106. No relief was in sight for today.

popular for evening wear is being cut much lower in back than in front. Sometimes the chiffon frock is cut extremely high in front and dips half way to the normal waistline in the rear.

Sweaters of Tuxedo and slip-on variety are being worn only by young girls in their teens this season, the older women preferring sports attire of more fastidious lines. Home-spun suits, made on mannish lines and worn with the hip-length cotton blouses, are popular with the matrons. Gingham ties in plaid or checkered designs are worn with the mannish turn-down collars which accompany the cotton sports blouse. Scarfs of home-spun are worn beneath three-quarter length topcoats in muffler effect.

The Middy blouse has probably passed beyond recall, but all of the new slip-on blouses reflect the once popular middy style.

White cotton chamoisette gloves with eyelet embroidery and colored stitchery will be worn with the summery frock in preference to the white silk glove. These have petal cuffs, ruffled cuffs and plain gauntlet cuffs and are conspicuous by their embroidery or trim.

**American Telephone & Telegraph Co.**  
139th Dividend  
The regular quarterly dividend of Two Dollars and Twenty-five Cents per share will be paid on Tuesday, July 15, 1924, to stockholders of record at the close of business on Friday, June 20, 1924.  
H. BLAIR SMITH, Treasurer.

**ONCE A CRIPPLE, NOW IS CHAMPION CHINNER**  
TORONTO, Ont.—Crippled from birth and a world's champion athlete at the present time is Hans Hart, a product of the steel district of South Chicago, Rotarians were told here this morning by Edgar E. Allen, president of the International Society for Crippled Children. The boy won his world's championship during the Junior Olympic games held simultaneously in many cities throughout the world during Boys' Week, sponsored by Rotary International. He chinned the bar twenty-seven times, the officials being required to lift him to the bar, his legs having been shriveled and useless from birth.

This is Rotary business day at the international convention of Rotarians in session here and discussion of the administrative affairs of the organization occupied most of the day's program.

**DALLAS.**—Frank Fennell, negro, was held in jail here today following his capture early Sunday after the slaying of Jack Kendall, white, a farmer of near Garland. Officers who captured the negro eluded a posse at Garland and brought their prisoner to Dallas for a-c-c-keeping.

# Something More!

After meals you want something more—a bit of sweet with a change of flavor. WRIGLEY'S is that "something more" and it's more than that! It is a great aid to your good health, as medical authorities say.

This is from a recent book on health:

"Many physicians now recommend gum chewing . . . for a better and more complete change of the starches into dextrin."

# WRIGLEY'S after every meal

—means that your digestion is aided while your pleasure is served; teeth and digestion both benefit.

Your choice of several flavors, all of the WRIGLEY quality—sealed in its purity package.

## SPRINGFIELD LODGE ELECTS OFFICERS

At the regular meeting of Springfield Lodge No. 74, A. F. and A. M., held last Saturday night the following officers were elected for the ensuing year:

W. R. Tidwell, W. M.  
M. W. Anderson, S. W.  
S. R. Partlow, J. W.  
Julius Nussbaum, Treasurer.  
J. Frank Cogdell, Secretary.  
T. A. Griffith, Tiler.

Other officers will be appointed and the installation will take place on or about June 24th.

## ARMY PLANES TO STAGE BATTLE OF GETTYSBURG

(By International News Service)  
GETTYSBURG, June 16.—Several thousand United States Army soldiers and 100 army airplanes will stage the "Battle of Gettysburg," on July 4, as it would be staged under modern war fare conditions.

Last year a detachment of Marines, re-enacted the battle as it occurred when fought by the Blue and Gray forces.

Machines, guns, tanks and modern barricades will be used in restaging the event this year. Thousands of visitors from all parts of the United States are expected to witness the modern exhibition of warfare.

One hundred airplanes, from scouting machines to bombers, are expected to whirl overhead, staging aerial maneuvers.

High officials of the Army and Navy are to attend the event, according to plans now under way.

Details of the "battle" are being worked out by army engineers, who are now scouting about in Central Pennsylvania for suitable landing places, where the planes may be refueled.

## TESTS OF CHLORINE GAS FOR COLDS WILL GO ON

(By International News Service)  
NEW YORK, June 16.—The recent experiments of Health Commissioner Dr. Frank J. Monaghan to cure "flu" by the inhaling of chlorine gas have been somewhat successful, the Commissioner stated recently.

"Two of those who volunteered for the experiment suffering with colds in the head," Dr. Monaghan said, "declared that they felt better, lighter and clearer after the treatment. Against this we must balance the mental reaction, which would tend to bring about just such a result."

"The initial test is only the beginning. We will go on with our experiments until we are convinced we have taken a false lead, or until claims for chlorine are proven. What a wonderful thing if it should turn out to be a positive cure."

People willing to be experimented on, who are suffering from colds or the "flu," according to the Commissioner, are conducted into an airtight room filled with a mixture of the gas and air, which they inhale for an hour.

## BLONDS MORE CAUTIOUS

PHILADELPHIA, June 16.—Blue-eyed, fair-haired people may be more adventurous and the first to go to war, as some authorities hold, but they are at the same time cautious and far-sighted if the fact that they head the list of life insurance policy holders means anything.

An examination of 100 policies picked at random from the files of the Provident Life Insurance Company of Philadelphia showed that far the greater number had blue eyes, brown or light brown hair, and fair complexions. Brunettes ranked second and a mixed of blonds and brunettes third.

Brown, light-brown and light hair led all the rest with fifty-nine. Dark brown, dark and black totaled thirty. Only two of the persons to whom the policies were issued had gray hair; three gray mixed and one turning gray. There are none listed as bald or having red hair.

Fair, light and blond complexions topped the list with forty six; dark and brunette, twenty three, and medium, seventeen.

## U. S. TOO BUSY TO GROW OLD HAPPILY, SAYS MEDICAL MAN

CHICAGO, Ill., June 16.—How to grow old successfully was told today by Dr. H. H. Drysdale, Cleveland, to the convention of the American Medical Association here.

"The 'frenzied finance' habit is responsible for a lot of unsuccessful age," he declared.

"It won't allow a patient to forget his responsibilities, and he must do that if he's to prosper in health," he explained.

"The national sin of overeating is another barrier to happy old ages. It's one of the heaviest burdens an elderly man can have."

But overeating may decrease because of prohibition, he added, declaring that alcohol, taken before meals, had been an important cause of gluttony.

"The advent of prohibition, with the disappearance of chronic alcohol cases, will do much to lower the death rate," he declared, and he warned the physicians:

"Make no compromises with such patients or you will fail in your mission. Your duty is to appeal to such patients' reason for a sane and rational mode of life."

America is in the midst of an "epidemic of injuries," Dr. J. Howard Beard of the University of Illinois, Urbana, told the convention.

"Railroad crossing tragedies, auto accidents, exhaust gas poisonings, caused by motor cars, industrial accidents and suicides caused by the strain of modern city life are taking the place of the old time menaces to life," he said.

"When Gorgas drained yellow swamps, when Pasteur discovered vaccines, when Lister developed aseptic surgery, and hundreds of other doctors developed cures, the old menaces had been solved."

"But now the suicide rate is about that of the whooping cough death rate. About as many people were killed in crossing accidents last year as died of scarlet fever in 1920. Fatalities resulting from auto accidents in 1923 are about the same as those from diphtheria and scarlet fever combined. Accidental deaths in industries are about equal to the total of deaths from measles, whooping cough and diphtheria. There are 700,000 persons injured yearly in their occupations."

## BRITISH TEST AUTOMATIC AIRSHIP LANDING DEVICE

(By International News Service)  
LONDON, June 16.—Tests are being made by the British Air Ministry with an automatic device to enable aeroplanes to land at a much slower speed than is possible at present.

Recent inventions, like the "slot wing" and the "flap," have both attained this object up to a point but both these depend upon the pilot for their operation.

The new device is said to be automatic, consisting of a hinged plane along the trailing edge of the planes, held down by a spring. As the speed increases the force of the air causes the flap to automatically come up level and form a line with the rest of the wing.

When the machine slows down to

land the trailing edge comes down and presents an increased wing curve, thus enabling the machine to land more slowly.

## COTTON AND CORN LOOKING BETTER

Cotton crop conditions have greatly improved in the Mexia territory as a result of the hot and dry weather of recent weeks. From many communities surrounding Mexia, the report is that the farmers are clearing their fields of grass and weeds and the threat of many pests, which promised

to destroy the crop for a time, has been lessened.

Cotton is taking on a healthy color and is growing rapidly. The corn crop, too, is looking much better.

The Womans Missionary Society of the Methodist church is holding its regular monthly social meeting this afternoon. The gathering meets with Mrs. L. C. Strange at 604 Rusk street. Mrs. Strange is assisted by Mesdames

Ed Measles, Tom Denning, E. M. Strange and George Peyton.

UNION LABEL

“For Mexia, I WILL”

THE NEWS IS FOR MEXIA.

When civic leaders evolve a plan for city building they carry it to the newspapers, which in turn, carry it to the people. Day after day, like a triumphant army assaulting a rampart, the home newspaper tells the home people of the proposed home improvement, its purposes and what it can be expected to do to aid in community improvement. The voters perhaps pay little attention to the proposal at first, then interest is stirred, and finally, in a large majority of cases, the plan is accepted and the city grows. When one goes treading into the past in Mexia, the home newspaper, which for more than a quarter of a century, has been The Mexia Daily News, has had an important part in the progressive moves that have been made here. Such a medium, in Mexia or in any other town or city for that matter, merits the support of the City Government, civic leaders and friends of progress as well as the support of business men. When the public is to be informed of the contents of an important document or any other bit of news, the home newspaper in practically every instance is the very best medium to inform the public intelligently. People will read an article in a newspaper much quicker than they will the same item in a book. It is not always what you pay for a thing that counts but what you receive in return. If a home newspaper merits existence it is indeed worthy of the hearty patronage and support of the home community. This fact is acknowledged by the most thoughtful as well as by those who pass lightly over the subject.

The Mexia Daily News is one of the largest industries in Mexia today. It's pay roll is not exceeded by any establishment in the business district of the city. Its mission is to help build Mexia. It welcomes the cooperation of every club, of every civic body and of every institution and firm in the city, as well as the aid of the individual reading public.

The files of the News show thousands of dollars worth of space given annually since first it bloomed into being for the betterment of Mexia. The greater the support, the greater the service. The greater the service, the bigger and better will be Mexia.

The News is proud of its friends. Hand in hand with them, it expects to fight for right and advancement in the future as well as in the past.

THE EDITORIAL OF THE DAY

TEN COMMANDMENTS OF BUSINESS

The Rotarian

We do not have the pleasure of knowing Mr. L. V. Selbeck, personnel manager of the Minnequa Steel Works, neither do we know just how familiar he is with the Sermon on the Mount, but one thing we do know about him: that he is the author of a little business sermon that every employee might well hang over his desk: Ten Commandments of Business. Handle the hardest job first each day. Easy ones are pleasures.

Do not be afraid of criticism—criticize yourself often.

Be glad and rejoice in the other fellow's success—study his methods.

Do not be misled by dislikes. Acid ruins the finest fabrics.

Be enthusiastic—it is contagious.

Do not have the notion that success means simply money making.

Be fair, and do at least one decent act every day in the year.

Honor the chief. There must be a head to everything.

Have confidence in yourself.

Harmonize your work. Let sun, shine radiate and penetrate.

RAIN DAMPENS MARRIAGE ARDOR OF LOVERS IN GREATEST CITY

By HELEN FOX  
(By International News Service)  
NEW YORK, June 16.—“In the Springtime a young man's fancy lightly turns to thoughts of”—the marriage license bureau. Not so this Spring. According to Assistant Chief Clerk James F. Gannon, of the Marriage License Bureau, licenses for May of this year were 500 fewer in New York than for the same month last year, and he thinks the same conditions prevail in other cities. And business so far in June has not been any too good.

The best reason Gannon could think of for Cupid's inactivity was Winter's issued 9,132 last month. On the whole we are a good 500 under the mark reached this time last year—and this is Leap Year too—it would seem that the more woman urges the leap the more wary becomes the man.

“But this is also a Presidential year. People aren't so sure of their jobs. Conditions are unstable. People are less ready to take the plunge.” Gannon also expressed the opinion that the decrease in marriage might be caused to some extent by the decrease in immigration. He also said that, while marriage has become less popular, civil marriage, as compared with church weddings, have increased

CENTRAL TEXAS PRESS

By N. P. HOUX

MEMBER

TEXAS PRESS ASSOCIATION

“Cussin” Teachers Not Wanted

AUSTIN, June 14.—Dr. Herbert Bolton is returning to California without giving a definite answer on whether he will accept the University presidency. Slim chances of his accepting, it is believed. Dr. Bolton explaining why he told reporters to go to hell when a reporter pressed him for a statement, said he always told reporters this when he had nothing to say.—Press Dispatch.

Such language is unbecoming in “any gentleman,” much less one who is to be an example for our young men and young women, and the University Regents should promptly reconsider, and withdraw the invitation to Dr. Bolton, and thus serve notice on him and others who might be called to this high office that Texas wants no “cussin” teachers in her institutions of learning.

Our new county jail looks so nice inside that if it wasn't just for the name of being in jail, we wouldn't mind a short stay behind the bars. It is now one of the best jails in the state and is modern in every respect.—Franklin Texan.

If the juries will do their full duty it should not belong before there will be no room in the “parlor jail” for even a modest editor.

Co-operation has been defined as that process whereby three deuces will beat two kings.—Mineral Wells Index.

That's not co-operation; that's luck and nerve.

One of the great troubles with the farmers today is that they have an idea that they can buy everything they eat cheaper than they can raise it. If this be true what about the people in Kansas who raise the bacon we eat, and the people in another states who raise the beans we eat, and the people in other states that raise the rest of the stuff we eat—what about them—how do they get along by raising this stuff?—Groesbeck Journal.

They get along by not only raising and eating it but by selling it to others. Texas farmers can do the

But, to his surprise 15 years later he began “teething” and another complete set of teeth came in.

These lasted a comparative short time, however, and ten years ago were removed.

“Uncle Tom” felt “pesky” several weeks ago and went to a doctor. The physician declared his illness was due to “teething.” He was cutting his fourth set of teeth. Ten of the last crop are already full-grown and “Uncle Tom” says they are as good as his second ones.

VALUABLES KEPT IN SAFETY VAULTS

HOUSTON, Texas, June 16.—A local banker in charge of a safety deposit vault tells of two unusual angles to the otherwise staid business of safeguarding the public's treasures. “One man asked for a quart size lock box,” the banker said. “He said his wife objected to his drinking at home, and he didn't dare keep the liquor at his office.”

“Another man pays \$60 a year for a box in which he keeps nothing but an old rusty horse shoe.”

GUSHERS LOSE  
TO MARLIN AT  
NOWLIN PARK

Returning home for the game Sunday, the Gushers lost to the Marlin Bathers by a hectic game which switched from one side to the other. Gressett of Marlin was knocked out of the box in the sixth and Ludwick was knocked out by the Bathers in the next time up. Gressett's home run featured the winning streak of the visitors.

AMERICAN GOLFERS TO PLAY IN BRITISH OPEN.

U.S. GOLFERS SAIL FOR ENGLAND.

En route to England are five well-known U. S. golfing stars bent on upholding the prestige of this country in the open championship tourney abroad. In the top row are, left to right, Al Espanozo, Gene Sarazen, Johnny Farrell; bottom row, Gilbert E. Nichols and Walter Hagen.

TAKE PART IN OLYMPIC TRYOUTS.

CHAMPION SWIMMERS INFL

Girl swimmers from every section of the United States and Hawaii took part in the Olympic swimming tryouts at Scarborough-Hudson, N. Y. Seated, left to right are, Carolyn Smith, Alma Mann, Florence Briscoe, Kathryn Brown, Carol Fletcher, Bettie Becker, Helen Meany, Aileen Roggin and Lillian Stoddard. Standing, left to right, are Sybil Bauer, Ida Schultz, Ethel McGary, Doris O'Mara, Peggy Williamson, Minnie De Vry, Ethel Lackie, Gertrude Ederle, Frances Corwells Shroth, Mariechen Wehselan and Agnes Geraghty.

Mexia Strengthens With Addition of Country Williamson and Temple Gets Star in Storey

Jinx Tucker in The Waco News Tribune says: The Mexia team after threatening to come from behind to nose out the leaders in the first half, dropped back after getting within a game and a fraction of the first division. The Corsicana Oilers stopped the drive of the Mexia club after the Gushers had won a series from Marlin and another from Waco. The Gushers after losing two out of three to Corsicana journeyed to Austin to drop another series and are now getting set for the second drive. The Mexia pitchers are now doing much better than they did earlier in the season. The addition of Country Williamson, Ned Seely and others has also given this club strength.

The addition of Roy Storey to the Temple team gives Manager Rankin Johnson one of the greatest offensive clubs in the league. When Sweet Lind gets back in the game, Johnson will be able to present a wrecking crew second to none in class D baseball of the states. Brown, Lind, Storey and Rube Liessner batting in rotation are apt to cause many T. A. hurlers heart-aches before the close of the second half. Lind, Brown and Storey should hit over .300, and while Liessner will not bat within the charmed circle, his ability to hit the old pellet so far makes him a dangerous man indeed.

WACO REDSKINS  
FIRE MELVER  
FOR LOSING  
PENNANT

News has been received here that Otto Molver has been released as manager of the Waco Indians of the Texas Association. President Dupuy is said to have considered that move the first thing necessary to stage a winning spur toward championship ship. "We are now three and a half games from the top but still have a fighting chance," he is credited with saying. He said that the team was not flailing under the management of Molver. Molver was given free reign on the field, he claimed, but has not had the Indians playing the brand of baseball they are capable of playing. He was manager last year of the championship team at Sherman but

tackled a difficult place when he went to Waco. During the two years that Waco has been playing with the T. O. and T. A. leagues, many managers have been employed.

DOUBLE-BAGGER IN SEVENTH BAGS GAME

CORSICANA, Texas, June 16.—Don Brown's two-bagger in the seventh scored the winning run of a sensational contest Sunday, Corsicana winning, 3 to 2.

BRAZIL'S NAVY OLD; U. S. MISSION AIDING

RIO DE JANEIRO, Brazil (United Press).—The Brazilian navy is gradually being reorganized, with the assistance of a mission from the United States navy. President Bernardes is averse to spending any large sums on the navy, although Brazil has a vast coast line. With the exception of two battleships, the Brazilian navy is composed of antiquated and in part obsolete vessels. Of her 10 destroyers, 8 are now in the drydocks for repairs.

Keep on telling 'em and you keep on selling them.

SEEK SUICIDE AS ONLY RELIEF IN VIENNA

VIENNA, (United Press).—A new wrinkle in suicides was demonstrated recently in Vienna. Tired of trying to eke out a hand-to-mouth existence in a city where the cost of living is already high and becoming higher, a young woman and her sweetheart rode together on their bicycles over a steep bank into the Danube. The tragedy was witnessed by some fishermen who were at work nearby; but rescue was impossible as the suicides were already far down stream before the fishermen could reach the spot. It is more or less of a red-letter day on the

### NOTICE OF CHARTER ELECTION

An ordinance ordering an election in the City of Mexia, Texas, to be held on the 7th day of July, 1924, for the purpose of submitting to the qualified voters of the City of Mexia, Texas, for the adoption or rejection of the proposed charter, prepared and framed by the Charter Commission heretofore elected, and designating the places at which said election is to be held, and appointing presiding officers thereof and declaring an emergency.

WHEREAS, on the 11th day of February, 1924, the City Commission of the City of Mexia, Texas, duly enacted an ordinance, submitting to the qualified voters of said City, at an election ordered and held for the purpose, on the 18th day of March, 1924, the question: "SHALL A COMMISSION BE CHOSEN TO FRAME A CHARTER?" and also providing for an election of fifteen members of a charter commission in case a majority of the votes cast at such election should be in favor of the choosing of such a commission, and which ordinance was duly approved and published and notices of such election were duly given as required by law; and

WHEREAS, said question was duly submitted and voted upon at said election in said city on said date, and the majority of the qualified voters voting at such election voted in favor of the choosing of a commission to frame a charter, and also a majority of the qualified voters voting at said election, voted in favor of fifteen citizens of said city to compose said Charter Commission; and

WHEREAS, said election was duly and legally held on the said 18th day of March, 1924, and results of said election was duly certified and returned to the City Commission by the proper election officers; and

WHEREAS, on the 21st day of March, 1924, this commission considered the several returns and canvassed the same, and found that there were cast, at said election, six hundred twenty-seven (627) votes, of which number five hundred five (505) votes were cast for the choosing of a charter commission, and one hundred twenty-two (122) votes were cast against the choosing of a charter commission, and this commission thereupon, by resolution, duly entered, declared that the position so submitted was sustained and adopted by a majority vote of the qualified voters of said city, voting at said election; and

WHEREAS, the City Commission of the City of Mexia, Texas, has examined into and investigated the regularity of the proceedings for said election and finds that the same was duly and legally held, that the notice required by law to be given has been duly and legally given, and that said election was conducted in strict conformity with all the requirements of law; and

WHEREAS, each and all of said fifteen citizens, so elected, duly qualified as members of said charter commission, and met and organized the same, and duly proceeded to frame a charter for the City of Mexia, Texas, and heretofore, on the 27th day of May, 1924, as such commission, signed such proposed charter and duly provided for the submission of the same to a vote of the qualified voters of said City, at an election to be held upon the question of the adoption or rejection of such charter upon the 7th day of July, 1924; and

WHEREAS, the said Charter Commission provided that the present City Commission shall call an election for such purpose; and

WHEREAS, the said Charter Commission will ratify and confirm and make the enactment of this ordinance its act and deed, and will make such ordinance its order for such election, all of which will be evidenced by the signature of the members of said Charter Commission appended hereto under the words: "APPROVED BY CHARTER COMMISSION"; therefore,

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF MEXIA, TEXAS:

Section 1. That an election shall be held in the City of Mexia, Texas, on the 7th day of July, 1924, at which the following proposition shall be submitted:

"Shall the charter reported by the Charter Commission to the City Commission of the City of Mexia, Texas, on the 27th day of May, 1924, and which had been prepared by the Charter Commission duly elected by the qualified voters of the city of the 18th day of March, 1924, be adopted as the charter of the City of Mexia, Texas, as contemplated and authorized by the Constitution and laws of the State of Texas, including Chapter 147, Acts of 1913, Regular Session?"

Section 2. That the polling places and presiding officers of said election shall be, respectively as follows: the polling place shall be at the City Hall, in the City of Mexia, and W. B. Kendrick is hereby designated as presiding officer.

Section 3. That said election shall be held under the provisions of Chapter 147, Acts of 1913, Regular Session, and all persons qualified to vote in said City under the laws

of this State regulating general elections shall be allowed to vote.

Section 4. That the manner of holding said election shall be governed by the general laws of the State of Texas, regulating general elections, when not in conflict with the provisions of the law hereinabove referred to.

Section 5. All voters desiring to adopt a charter so prepared and reported by the Charter Commission shall have printed on their ballot the following:

OFFICIAL BALLOT  
"For the adoption of the Charter prepared by the Charter Commission duly elected on the 18th day of March, 1924, and which was reported by said Charter Commission to the City Commission of the City of Mexia on the 27th day of May, 1924." And those opposed shall have on their ballots the following:  
"Against the adoption of the Charter prepared by the Charter Commission duly elected on the 18th day of March, 1924, and which was reported by said Charter Commission to the City Commission of the City of Mexia on the 27th day of May, 1924."

Section 6. That the action of the aforesaid Charter Commission in calling the election for the purpose hereinabove stated, and in all other respects with reference to the framing and submitting of such proposed charter, are hereby ratified and confirmed, and the said Charter Commission, or the members thereof, shall ratify and confirm all things done by the present City Commission of the City of Mexia, Texas, with respect to the matters and things dealt with in this ordinance, and shall make the same their act and deed by subscribing their respective names hereto under the caption, "APPROVED BY CHARTER COMMISSION," and such names as so subscribed shall be published as a part of this ordinance.

Section 7. A copy of this ordinance shall be sufficient notice of said election, and thirty (30) days notice of the time and place of holding the said election shall be given by posting certified copies thereof at the places designated for holding said election at least thirty (30) days prior to the holding of said election, and by publication of such notice not less than thirty (30) full days from date of election.

Section 8. The fact that the City of Mexia is at the present time without a charter and that the public interests require the adoption of a charter, creates an emergency and an imperative public necessity for the suspension of the rules requiring ordinances to be read upon more than one day and for the immediate taking effect of this ordinance, and such rules are hereby suspended, and it is ordained that this ordinance shall take effect immediately upon its passage and approval.

Passed and approved this 27th day of May, 1924.

W. WATSON,  
Mayor of the City of Mexia, Texas.

Approved:  
Attest:  
R. D. Morgan, City Secretary.

## ROTARIANS ARE INTERESTED IN YOUTH OF MEXIA

At the Rotary club last Thursday, a program was conducted more nearly according to the suggestions of Rotary International than any heard in sometime.

At least that was the opinion of many who have since expressed themselves on the subject. It was a Rotary program conducted by local Rotarians, with an object in view and with some prospects of finally accomplishing that purpose.

The report of Secretary J. W. Elliott showed that the attendance on the occasion was better than at any time in several weeks.

J. D. Arrington presided over the program, which consisted of enthusiastic club singing, Rotary songs being sung, led by George Bell; a classification talk and another talk on the spirit of Rotary, under the title "The Hobby of Rotary."

Albert H. Berry, who left that afternoon for the annual Rotary convention at Toronto told something of the plans for the convention and stated that he would bring his report back within about three weeks.

E. L. Crow, delivered a classification talk on Cotton. He traced the circuit followed by a bale of cotton from the time that it arrives in town, brought from the field and gin, to the last trip it takes across the Atlantic. He showed that cotton makes several trips in various forms across the Atlantic, until it is finally worn out and there is no future use for it. It was a real educational talk and one which held the close attention of his auditors. He concluded by congratulating the citizens upon their step to start the cotton mill industry in Mexia.

"Boys" was pointed out as the hobby of Rotary. The speaker stated that Rotary has a real hobby; that at the convention last year in St. Louis, this hobby became very evident. Edgar Guest, the great poet who writes so feelingly of boys, stood for hours before the big body of big men and thrilled them with his poems on boys. As he gave these poems, the eyes of Rotary were moist with tears and the hearts of Rotarians were touched as never before in behalf of boys. Hence it will be surprising, if the clubs of the world don't have a great report to make at Toronto regarding the greater service rendered in behalf of Boy Welfare the past twelve months.

Rotarians are interested in Boys because they are the hope of the community. Following this program, a report was called for from the Boys Educational Committee. J. Sanford Smith stating what had been done. Mr. Smith stated that the Mexia Rotary club had assisted one Mexia boy through Texas A & M. this past year. President Hardy Eubanks urged that further subscriptions be made to the educational fund in order that the local club might do more for boys this coming year than ever.

### OIL MAN FROM PHILIPPINES

F. C. Edwards, representative of the Standard Oil Company, at Manila, P. I., has arrived at Detroit for a stay of about three months. He has joined six other Standard Oil men from the Far East, who are studying carburation and lubrication at the Michigan State Automobile School.

Patronizing home institutions of all kinds is being fair to those from whose patronage you expect to profit.

a large number of sovereigns from the Teague Grove. Mrs. Davidson presided at the meeting and introduced some of the many members she has secured for our organization the few days she has been with us. After these members were received into the order, the drill team of Teague put on the floor work which was enjoyed by all present. They proved to us what we could do if we only try, and it is our aim to have a drill team in our Grove in the near future. Those desiring to be in this team will please meet with us next Friday afternoon at 3 o'clock. If you are not a mem-

ber and would like to become a member of the best fraternal insurance society, you may get all desired information from our clerk, Mrs. Mary E. Mayo.

We certainly enjoyed the visit of Mrs. Davidson and the Teague Sovereigns and hope they will come again. After the business meeting dainty refreshments were served by the local Grove.
